AUDITOR'S REPORT

As regards Auditor's observations, the relevant notes on account are self-explanatory and, therefore, do not call for any further comments, except in the matter of non payment of Service Tax and Cess thereon of Rs.5.58 Lacs and disputed liabilities of Rs. 11.75 Lacs towards the excise duty and Rs. 227.71 Lacs towards entry tax.

The service tax has not been paid in view of the representations made by various Industry Associations to the Government of India with regard to the applicability of the service tax on such services provided outside India. As the Government has decided to give the refund of such taxes, the Board of Directors has decided to pay the same.

As regards the payment of disputed liabilities, regarding excise duty the matter is under consideration of Government of India while the entry tax case is under appeal with the Hon'ble High Court, Rajasthan. These liabilities would be met immediately if required and to the extent directed by the competent authorities.

CERTIFICATE

To the Members of Banswara Syntex Limited,
Banswara

We have examined the compliance of conditions of Corporate Governance by Banswara Syntex Limited for the year ended on 31st March, 2008 as stipulated in Clause 49 of the Listing Agreement of the said Company with the Stock Exchanges.

The Compliance of conditions of Corporate Governance is the responsibility of the management. Our examination was limited to a review of the procedures and implementation thereof adopted by the Company for ensuring the compliance with the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, and the representations made by the Directors and the management, we certify that the company has complied with the conditions of Corporate Governance as stipulated in Clause 49 of the above-mentioned Listing Agreement.

We state that no investor grievance is pending for a period exceeding one month against the Company as per the records maintained by the Investors Grievances Committee.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

MANAGEMENT DISCUSSION AND ANALYSIS

The core business of the Company is the manufacture and marketing of synthetic blended yarn, wool and wool mix yarn, synthetic and worsted spun fabrics and readymade garments. The management discussion and analysis is given in sub-paragraphs (a) to (j) below:

a) Industry structure and development

Large number of textile companies/manufactures in India have expanded their production capacities. The Government of India has further helped the textile industry by continuing the Technology Upgradation Fund Scheme (TUFS) for the 11th Five Year Plan.

The Indian manufacturers have to compete Chinese industry all over the world to increase its share, and therefore, they have to become competitive.

Indian spinning industry has substantially increased its installed/production capacities and is finding itself in a difficult market situation. However, there is good scope for forward integration i.e. production of good quality fabrics as also the readymade garments. The Indian production capacities for these two segments need further strengthening to capture the world market in a big way.

In the domestic market the growth is now being driven by the organized retail chains. The textile products are consumable items and can achieve rapid growth through proper alignment with the organized retail marketing chains. The industry generates employment for various classes of skilled and unskilled workers. The industry has represented to the Government of India to extend all support for continued growth for this segment.

b) Opportunities

1. Higher labour cost in the developed countries is driving out the textile and yarn trade to low cost Asian markets, viz. China, India, Vietnam, Bangladesh, Pakistan etc.
2. India is fast becoming a preferred destination for several global brands for sourcing their raw material requirements in the textile and apparel segment.
3. Though China is better equipped for manufacture of higher volume commodity products, India's strength lies in short run quality of products, better service to the customers and exclusivity in the premium and mid segment categories.
4. India has all the pre-requisites for emerging as a long term sourcing hub for manufacture and marketing textiles and apparel in terms of a stable political climate, trade friendly laws, a well balanced economy as well as key factors like abundant raw material supply, established textile base and a wide, varied and flexible product mix.

Industry Challenges & concerns

1. Increasing fuel oil prices causing hike in the cost of power, transportation and other inputs leading to an increase in overall product costs. This is also affecting the availability of raw materials and increasing the competitiveness of the industry.
2. The level of inflation is currently in two digits, may result in reduction of per capita consumption of textile products. This will reduce the consumer spending on textile products.

3. Several Indian textile manufacturers have set up their own captive coal based thermal power plants. The coal prices have however gone up by more than 75% in the last 9 months and as such the expected level of returns has substantially come down.
4. Fluctuation of Indian Rupee against foreign currencies particularly US Dollar is also a matter of serious concern.
5. Shortage of trained manpower is also affecting the working.

c) Segment-wise performance

The company is engaged in the manufacture of textile products such as man-made synthetic blended and woolen worsted yarn, all types of high quality suiting for readymade garmenting and readymade garments. For manufacture and sales, the company has only one major operating activity, viz. textile products. Accordingly, the Company is of the view that it has only a single business segment. The Company has no activity outside India except export of textile products manufactured in India, thus, there is no geographical segment.

The Company is focusing on increasing the fabric and garment sales. The share of fabric and garments in the Company's total turnover was 44% during the year 2007-08, which is expected to grow up to 60% in the next couple of years. Thus, the Company is moving towards higher value chain.

d) Outlook

During the year 2007-08, the Company invested mainly to rationalise and diversify its business within the textile trade. It started a worsted spinning plant with 14740 spindles, a readymade garment plant at SEZ area, Surat a brand new weaving plant for furnishing fabrics and an 18 MW coal based captive thermal power plant besides increasing the production capacities in spinning and weaving. The installed capacities of the Company after completion of this moderate expansion and diversification programme on hand will be as under:-

Particulars		Before start of the schemes	On completion of the Schemes	Present position As on 29.05.08
Spinning	R/F Spindle Nos.	98,144	1,34,152	1,26,016
	Air Jet Spindle (Nos.)	576	576	576
Weaving Looms (Nos)		153	194	185
Upholstery (No.of Loom)		Nil	10	10
Processing (Mtrs/Month)		25,00,000	25,00,000	25,00,000
Garments	Trousers (Pcs/Month)	1,50,000	2,40,000	1,90,000
	Jackets (Pcs/Month)	Nil	11,250	2,000
Madeup	(Sets/Month)	Nil	30,000	Nil

The impact of this investment and increase in production capacities will be felt in the current financial year.

The Company has set up a Design Studio for fabrics and garments. It is also opening a Marketing Office in New York, U.S.A. The availability of polywool yarn for fabric will open up new opportunities for the fabric business. The Company has a Joint Venture with a French company, Carreman. They are providing "Women's Wear Western Solution". BSL marketing team is focusing for its "Mens' Wear Complete Solution".

The company is a preferred supplier to the premium garment brands. Commencement of production at its new garment unit at SEZ area, Surat will further improve the Company's future business prospects.

The Indian currency has become weak against other foreign currencies mainly against US Dollar. This can give better price realization on exports in future.

e) Internal control system

The Company has a proper internal control mechanism which provides adequate safeguards and effective monitoring of the transactions. The Company has a strong and independent Internal Audit Department. The internal control system provides for well documented policies, guidelines, authorizations and approvals procedures. The Internal Auditor reports to the Managing Director and the Audit Committee of the Board. Personnel of Internal Audit Department conduct periodical audits in all the areas to ensure that the Company's control mechanism is properly followed and all statutory requirements are duly complied with.

f) Discussion on financial performance with respect to operating performance

The operating performance of the Company has been detailed in the first two paragraphs of this Directors' Report under the head 'Financial Review' and 'Operations'.

g) Developments in human resources and industrial relations

The Company's progress is a reflection and outcome of the optimum utilization of its human resources. The Company has fostered a culture of ownership, accountability and self evaluation that encourages the employees to continuously strive to improve their efficiency. Regular meetings at periodical intervals facilitate interaction between the senior Management and employees at various levels for building a transparent organization in each area of the company's business. Face-to-face interaction between the employees and top management enables sharing of business information and discuss general queries and taking care of the general concerns of the employees. The industrial relations remained cordial throughout the year.

h) Cautionary Statement

Statements in the Management Discussion and Analysis describing the Company's expectations or predictions

may be "forward looking" within the meaning of applicable laws or regulations. Actual results may differ materially from those expressed or implied.

i) Major events during the year

1. Commencement of commercial production of 18 MW captive thermal power plant from September, 2007.
2. Commencement of commercial production at Garment Unit in SEZ area, Surat from April, 2008.
3. Commencement of production of Jackets at Garment factory at Daman.
4. Commencement of trial production for wool and wool mix yarn, from May, 2008, commercial production scheduled from June, 2008.

5. Commencement of trial production of furnishing fabrics in Jacquard Weaving Division from May, 2008; commercial production expected from July, 2008.
6. The Company discontinued the labour job spinning contract with Banswara Fabrics Limited and since taken over the workforce of BFL on its rolls.

j) Profit before tax

The profit before tax for the year 2007-08 is Rs.567.36 lacs i.e. 1.29% of sales as against Rs.2278.49 lacs i.e. 5.78% of sales in the Financial Year 2006-07.

SCHEDULE '22' ACCOUNTING POLICIES AND NOTES ON ACCOUNTS

A) ACCOUNTING POLICIES

1. System of Accounting and Use of Estimates

The Company follows the mercantile system of accounting by following accrual concept in the preparation of accounts. The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized.

2. Fixed Assets

Value of Gross Block of fixed assets represent cost of acquisition, including non-refundable taxes & duties, expenditure on installations, attributable pre-operative expenses including borrowing cost and other identifiable direct expenses incurred upto the date of commencement of commercial use of the assets.

However value of gross block of fixed assets acquired upto 31.03.1985 has been stated at revalued amount as on 31.03.1986.

3. Depreciation

Depreciation on fixed assets is provided for on straight line method in accordance with the provisions of section 205(2)(b) of the Companies Act, 1956. Depreciation on additions/disposals during the year is provided on pro-rata basis.

Consequent to changes made in schedule XIV, vide Notification No. GSR 756E dated 16.12.93, the company had revised the rate of depreciation. The specified period had been recomputed as suggested by the Circular dated 20.12.93 except in case of petty assets like furniture, fixture and office equipment where it is difficult to effect the changes. While adopting the revised rates, the Spinning Plant has been categorized as "Continuous Process Plant" on the basis of technical opinion obtained by the company.

Value of leasehold land is amortized over the period of its lease.

4. Valuation of Inventories

Inventories are valued at Lower of Cost or Net Realisable Value. Cost is measured on first in first out basis.

5. Sales and Job Income

i) Sales are inclusive of excise duty , refund and other related realization but exclusive of value added tax charged.

ii) Job income is accounted for on delivery of finished goods inclusive of excise duty.

6. Investments

Long Term Investments are carried at cost. Whereas, Current Investments are carried at lower of Cost or Net Realisable Value. In case of Long Term Investments, permanent diminution in the value is provided for.

7. Benefits receivable against export and its obligation

Unutilised credits, entitlements under Duty Entitlements Pass Book (DEPB) schemes are accounted for in the year of export at market value.

8. Foreign Currency Transactions

i) Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing on the day of the transactions.

ii) Monetary items denominated in foreign currency at the year end and not covered by forward exchange contracts are translated at year end rates and those covered by forward contracts are translated at the rate ruling at the date of transactions as increased or decreased by the proportionate difference between the forward rate and exchange rate on the date of transactions such difference having been recognized over the life of the contract.

Any income or expenses on account of exchange difference either on settlement or on translation is recognized in the profit and loss account.

9. Employees' Benefits

i) Short-term employee benefits are recognized as an expense at the undiscounted amount in the profit and loss account for the year in which the related service is rendered.

ii) Post employment and other long term employee benefits are recognized as an expense in the profit and loss account for the year in which the employee has rendered services. The expense is recognized at the present value of the amount payable determined using actuarial valuation techniques. Actuarial gains and losses in respect of post employment and other long term benefits are charged to the profit and loss account.

SCHEDULE '22' ACCOUNTING POLICIES AND NOTES ON ACCOUNTS (Contd.)
10. Provision for doubtful debts

15% is being provided each year on amount outstanding over a period of 6 months.

11. Taxes on Income

Current tax is determined as the amount of tax payable to the Taxation Authorities in respect of taxable income for the year. Deferred tax is recognized, subject to consideration of prudence, in respect of deferred tax assets, on timing differences being difference between taxable income and accounting income that originate in one year and are capable of reversal in one or more subsequent years.

In respect of unabsorbed depreciation / carry forward of losses under the tax laws, deferred tax assets are recognized only to the extent that there is virtual certainty that future taxable income will be available against which such deferred tax assets can be realized.

12. Borrowing Costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that takes necessarily substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue.

13. Except where stated, accounting policies are consistent with the generally accepted accounting principles and have been consistently applied.

ANNUAL REPORT 2007-2008

ANNEXURE-II TO DIRECTORS' REPORT

Additional information as required under the Companies (Disclosure of Particulars in the Report of Board of Directors) Rule, 1988.

A. CONSERVATION OF ENERGY :

a) Energy Conservation measures taken.

- Replacement of copper ballast with electronic ballast to save power in lighting.
- Providing Invertors in humidification towers to reduce the speed of the fans.
- Fixing of tube light reflectors in the departments to reduce the no. of fittings.
- Providing transparent sheets on the roof where there is no false ceiling to switch off lights during day time.
- Stoppage of air leakage at various points in main line and machines.
- Installation of invertors on carding machines.

b) Additional investment and proposal being implemented for reduction of consumption of energy.

The Company has installed 15/18 MW. Captive Thermal Power Plant. This started generation of power w.e.f. September, 2007. The uninterrupted power supply through Thermal Power Plant gives better productivity, less stoppages and breakdowns thereby reducing the consumption of power.

c) Impact of the measures at (a) and (b) above for reduction of energy consumption and consequent impact on the cost of production of goods.

The cost of generation of power through coal based thermal power plant is less than the cost of electricity purchased through AVVNL or produced through furnace oil based generating sets. It has reduced the cost of production for the Company's finished products.

d) Total energy consumption and energy consumption per unit of production in respect of Industries specified in the schedule thereto.

As per form 'A' enclosed.

B. TECHNOLOGY ABSORPTION :

Efforts made in technology absorption.

As per form 'B' enclosed.

C. FOREIGN EXCHANGE EARNINGS AND OUTGO :

The activities relating to exports, initiatives taken to increase exports, development of new export market for products and services and export plans have been discussed under the head "Exports" in the main body of the Directors Report.

The information in respect of Foreign Exchange earning and outgo is contained in item 10(B)(d) & (e) in Schedule 22 annexed to the Balance Sheet as at 31st March, 2008.

FORM B

FORM FOR DISCLOSURE OF PARTICULARS WITH RESPECT TO TECHNOLOGY ABSORPTION 2007-08

RESEARCH AND DEVELOPMENT (R & D)

1. Specific areas in which R & D carried out by the Company.

The company has set up a world class fabric testing laboratory. Now the Company has also applied for ISO 17025 accreditation of NADL certifications. It has also created fabric design department and a garment studio at Mumbai to develop various type of fabric and improvement in the garment designs. The Company has also purchased a computer program with designing software for production of Jaquard fabric.

The Company has imported low cost Chinese Spinning and Weaving machines, which are cheaper than LMW/Indian Machines.

2. Benefits derived as a result of the above R & D

The products of the Company are well accepted due to adherence to the international quality standards. The products have wide acceptability among its customers. The fabric samples can be tested in the Company as per customers requirements.

The Company purchased Chinese ring frames, garment machineries and worsted spinning plant and other machines which are cheaper than other Indian/ Imported machines. The delivery period for these machines from China was much lower in comparison.

3. Future plans and action

Research and Development is a continuous process. The Company is going to add new testing equipment for woolen and worsted fabrics and upholstery fabric.

For the garment division, the Company has imported Jackets stitching machinery which has been installed in garment factory at Surat.

4. Expenditure on R & D

- Capital expenditure is approx. Rs. 200 lacs.
- Recurring - Normal running expenditure Rs. 95 lacs.
- Total Rs. 295 lacs.
- Total R & D expenditure as a percentage of total turnover is less than 1%

TECHNOLOGY ABSORPTION, ADOPTION AND INNOVATION

1. Efforts, in brief, made towards technology absorption, adoption and innovation.

The Company has production capacities for synthetics and wool & wool mix yarn besides, weaving of low cost fabric to the products for high end customers at Banswara. It is manufacturing garments at Daman and Surat. The Company is regularly modernizing its existing Plant, diversifying its activities and also expanding its installed capacities. During the year, the Company has installed Tsudacoma looms, ring frames from China, Compact with ELL Twist (R) LMW LR6, Carding machine, TFO, doubling machine, Comber and Autoconer besides 15/18MW. Captive Thermal Power Plant, with Turbine from China, a worsted spinning unit and jacquard weaving unit. The Company has upgraded its laboratory at finishing section to have a testing facility of international standard.

2. Benefits derived as a result of the above efforts, e.g. product improvement, cost reduction, production development, import substitution etc.

Good quality yarn, fabrics and garments are being produced. The Company is saving in cost due to high productivity and automated machines. The products of the Company are well accepted in international market. Captive Thermal Power Plant has reduced the cost of production. It has developed specialty yarn which is an achievement besides import substitution.

3. In case of imported technology (import during the last 5 years reckoned from the beginning of the financial year) the following information may be furnished.

Not applicable.
