ABOUT US

Our journey began five decades ago in 1976, when our Founder Chairman, Shri R. L. Toshniwal, fondly known as “Sethji,” established a modest spinning mill with a vision to build a world-class textile enterprise. Driven by his foresight, entrepreneurial spirit, and unwavering commitment to excellence, the Company steadily expanded its capabilities over the years, integrating weaving, processing, and garment manufacturing into its operations. Today, Banswara Syntex stands as one of India’s leading integrated dyed textile manufacturers, delivering superior quality and innovation across the textile value chain. With a strong customer-centric approach and a commitment to operational excellence, we proudly serve a distinguished portfolio of leading domestic and global brands across all our business verticals.

OUR JOURNEY

1976

BSL founded as a joint venture with RIICO in Banswara, Rajasthan, with 12,500 spindles. Mr. Rameshwar Lal Toshniwal, Textile Engineer from VJTI Bombay & Leeds University, stakes his conviction in a bamboo forest town far from any textile hub.

1982

Mr. Toshniwal acquires full ownership from RIICO, committing his own capital entirely to the enterprise. An act of complete belief in the mill and the town.

1993

BSL enters cloth weaving with the establishment of a dedicated weaving plant, marking its evolution from a spinning-focused operation into an integrated textile manufacturer serving both domestic & international markets.

2003

Garmenting division launched. A domestic and global buyer base established: Uniqlo, Calvin Klein, Marks & Spencer, Next. BSL becomes a Four Star Export House, recognised by the Government of India.

2012

Founder Mr. Rameshwar Lal Toshniwal honoured with the Lifetime Achievement Award by the Textile Commissioner of India, recognition of five decades of contribution to the Indian textile industry.

2024

Chairman Mr. Rakesh Mehra receives the SRTEPC Lifetime Achievement Award. BSL begins its solar transition and participates in major global textile expos.

50 FORWARD

2026

Golden Jubilee Year. 157,000+ spindles. 463 looms. 13,500+ people. 50+ countries. Fifty Forward Vol. 1 published, the beginning of a bimonthly voice for everyone in the BSL family.

MISSION

To deliver high-value textile and apparel solutions through sustainable innovation and enduring partnerships, creating lasting value for our customers, employees, communities, and shareholders.

VISION

To be the world's most trusted and innovative textile solutions partner, enriching lives, inspiring brands, and shaping the future of fashion.

CSR ACTIVITIES

BSL has always believed that its responsibility extends beyond the factory gate. This year, our CSR initiatives supported hospitals, schools, tribal communities, and the park that bears our founder's name, reflecting the values on which the mill was built.

Shikshantar: Swaraj Shakti Girls Fellowship

In October 2025, eight advanced Shikshantar girls travelled from Udaipur to Banswara to conduct a three-day Winter Camp for BSL staff children. Supported by BSL through the Swaraj Shakti Girls Fellowship, these young tribal women have developed skills in art, design, farming, photography, and leadership, and are now earning independently through creative projects and community initiatives. Their Gavri art exhibition at Udaipur's City Palace attracted over 1,000 visitors.

OSCAR Foundation: Life Skills Through Football

For the third consecutive year, BSL supported the OSCAR Foundation's Life Skills through Football programme in Daman, Diu, and Dadra & Nagar Haveli. This quarter, 8,461 children across 97 schools participated in football and life skills sessions. Four girls qualified for the School National Games, community teams excelled at the State-Level Winter Camp Tournament, and Prachi, a 13-year-old participant, earned selection to her district team.

R.L. Toshniwal Udyan: A Garden for Banswara

BSL continued its care of R.L. Toshniwal Udyan this year, maintaining it as a green community space where families gather, children play, and residents find moments of peace. In our jubilee year, preserving the park that bears our founder's name is a meaningful way of honouring the trust the town placed in him and in BSL.

Mahatma Gandhi District Hospital: Mother & Child Ward

BSL adopted the cleaning and upkeep of the Mother and Child Ward at Mahatma Gandhi District Hospital in Banswara this year, helping create a cleaner and more dignified environment for mothers and newborns. The hospital's Chief Medical Officer formally acknowledged the improved hygiene standards, highlighting the positive impact of this local initiative.

CHAIRMAN'S MESSAGE

Rakesh Mehra
Chairman

Dear BSL Family,

As we step into our 50th year, it is a privilege to reflect on a journey that began with the vision of our Founder Chairman, Shri R.L. Toshniwal (Sethji), who established a modest spinning mill.

Over five decades, we have grown into one of India's finest integrated dyed composite textile mills, with capabilities spanning spinning, weaving, processing, and garments, serving leading customers across the globe. This milestone is the

result of resilience, determination, and the collective efforts of our entire team. Building a world-class enterprise in Banswara, then a region with limited infrastructure, was a remarkable achievement driven by Sethji's vision.

Today, as Banswara has flourished alongside us, we continue investing in our future. Over the past four years, we have invested over ₹410 crore in modernization and employee facilities. In an increasingly competitive global environment, our focus remains on efficiency, value engineering, and maximizing our capabilities to create sustainable growth and opportunities for our people.

Wishing you all continued success. Jai Hind.

Step 2 : Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

(i) The voting period begins at **9.00 A.M. on Saturday, 25th July, 2026 and ends at 5.00 P.M. on Wednesday, 29th July, 2026**. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of Thursday, 23rd July, 2026 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

(ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.

(iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations,

2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

(iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/ CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to Section 190 of the Companies Act, 2013, the particulars of re-appointment of Mr. Rakesh Mehra as Chairman and Whole-Time Director, Mr. Ravindrakumar Toshniwal as Vice Chairman and Whole-Time Director and Mr. Shaleen Toshniwal as Managing Director, as specified in the resolution together with the accompanying explanatory statement, shall be deemed to constitute a memorandum setting out the terms and conditions of his appointment.

It is hereby confirmed that the Company has not committed any default in respect of any of its debts or interest payable thereon for continues period of 30 days in the preceding financial year and in the current financial year.

It is submitted that based on the projections, the overall managerial remuneration may exceed the limit specified in section 197 of the Companies Act, 2013 and Regulation 17(6) (e) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. The Members are requested to consider the re-appointment and revision in remuneration of Mr. Rakesh Mehra, Chairman and Whole-time Director, Mr. Ravindrakumar Toshniwal, Vice Chairman and Whole-time Director and Mr. Shaleen Toshniwal, Managing Director of the Company.

The disclosure required in terms of Part II, Section II of Schedule V of the Act are mentioned in Annexure – 1 to this Notice.

Additional Information in respect of Mr. Rakesh Mehra, Mr. Ravindrakumar Toshniwal and Mr. Shaleen Toshniwal, including his brief resume and other requirements pursuant to Regulation 36(3) of SEBI (Listing Obligations and Disclosure Requirements), 2015 and SS-2 – Secretarial Standards of General Meeting in accordance of Section 118(10) of Companies Act, 2013 is provided in **Annexure – 2**.

The Board is of the view that knowledge and experience of

Mr. Rakesh Mehra, Mr. Ravindrakumar Toshniwal and Mr. Shaleen Toshniwal will continue to be of immense benefit and value to the Company and pursuant to the recommendation of the Nomination & Remuneration Committee and Audit Committee, recommends their re-appointment and remuneration for a period from 1st January, 2027 to 31st December, 2029 to the Members for approval.

Further, as per Regulation 17(6)(e) of SEBI Listing Regulations, members approval by way of special resolution will be required if the total remuneration payable to more than one executive directors who are promoters or members of the promoter group exceeds 5% of the net profits of the Company calculated as per Section 198 of the Companies Act, 2013. Hence, your Company thought it prudent to obtain approval from the members by way of Special Resolution.

Mr. Rakesh Mehra, Mr. Ravindrakumar Toshniwal and Mr. Shaleen Toshniwal (being related to each other) are interested in the resolutions set out at Item No. 5,6 & 7 of the Notice. Their relatives may also be deemed to be interested in the respective resolutions, to the extent of their shareholding interest, if any, in the Company.

Save and except Mr. Rakesh Mehra, Mr. Ravindrakumar Toshniwal, Mr. Shaleen Toshniwal, Mrs. Kavita Soni and their relatives to the extent of their shareholding interest, in the Company, none of the Directors or Key Managerial Personnel and their relatives are, in any way, concerned or interested, financially or otherwise, in the resolutions set out at Item No. 5,6 & 7 of the Notice.

The Board recommends the Special Resolution set out in the Item No. 5,6 & 7 for the approval of the Members of the Company.

ITEM NO. 8

Pursuant to the provisions of Section 149, 150, 152, 161 of the Companies Act, 2013 read with Schedule IV of the Act, SEBI Listing Regulations and as per the recommendation of Nomination and Remuneration Committee, the Board of Directors at its meeting held on 19th May, 2026, appointed Mr. Udeypaul Singh Gill, (DIN: 00004340) as an Additional Director in the category of Non-Executive Independent Director of the Company for a first term of five (5) consecutive years from 20th May, 2026 to 19th May, 2031 (both days inclusive) subject to approval of Shareholders.

In terms of section 160 of the Companies Act, 2013, the Nomination and Remuneration Committee and the Board has recommended the appointment of Mr. Udeypaul Singh Gill as an Independent Director pursuant to Sections 149 and 152 of the Companies Act, 2013. The Company has also received notice in writing from a member proposing the candidature of Mr. Udeypaul Singh Gill to be appointed as Independent Director of the Company.

The Company has received a declaration from Mr. Udeypaul Singh Gill confirming that he meets the criteria of independence under the Companies Act, 2013 and the SEBI Listing Regulations. Further, the Company has also received from Mr. Udeypaul Singh Gill a consent to act as a Director in terms of section 152 of the Companies Act, 2013 and a declaration that he is not disqualified from being appointed as a Director in terms of Section 164 of the Companies Act, 2013, nor debarred

from holding the office of a director by virtue of any SEBI order or any such other regulatory authority and has successfully registered himself in the Independent Director's Data Bank maintained by Indian Institute of Corporate Affairs.

Additional Information in respect of Mr. Udeypaul Singh Gill, including his brief resume and other requirements pursuant to Regulation 36(3) of SEBI (Listing Obligations and Disclosure Requirements), 2015 and SS-2 – Secretarial Standards of General Meeting in accordance of Section 118(10) of Companies Act, 2013 is provided in **Annexure – 2**.

The Nomination and Remuneration Committee (“NRC”) had previously finalized the desired attributes for the selection of the Independent Director(s) such as experience, expertise and independence etc. On the basis of those attributes, the NRC recommended the candidature of Mr. Udeypaul Singh Gill.

In the opinion of the Board, Mr. Udeypaul Singh Gill fulfils the conditions for independence specified in the Act, the Rules made thereunder and the SEBI Listing Regulations and such other laws / regulations for the time being in force, to the extent applicable to the Company and he is independent of the Management. The Board is of the opinion that the appointment of Mr. Udeypaul Singh Gill as Non-Executive Independent Director, would be in the interest of the Company and it is desirable to avail his services, due to his background and experience. In line with the Company's remuneration policy for Independent Directors, Mr. Udeypaul Singh Gill will be entitled to receive remuneration by way of sitting fees as approved by the Board of Directors, reimbursement of expenses for participation in the Board meetings / Committee meetings, if any.

As per regulation 17(1C) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, (“SEBI Listing Regulations”), the appointment of any person on the Board of directors is required to be approved by the shareholders earlier of the next general meeting or three months. Accordingly, the resolution seeks the approval of Members for the appointment of Mr. Udeypaul Singh Gill as Non-Executive Independent Director of the Company for a period of 5 (five) consecutive years from 20th May, 2026 to 19th May, 2031 (both days inclusive) pursuant to Sections 149, 152 and other applicable provisions of the Act and the Rules made thereunder (including any statutory modification(s) or re-enactment(s) thereof) and he shall not be liable to retire by rotation.

Pursuant to Regulation 17(1A) of the SEBI Listing Regulations, it is also proposed to obtain prior approval of the shareholders, for continuation of directorship of Mr. Udeypaul Singh Gill, even after he attains the age of 75 years during the tenure of his directorship with the Company. The Board is of the view that continuation of Mr. Udeypaul Singh Gill as Director will be in the interest of the Company as he possesses the requisite core skills, capabilities and competencies as required in context of the business of the Company.

Except, Mr. Udeypaul Singh Gill, being appointee and/or his relatives, none of the Directors and Key Managerial Personnel of the Company and their relatives are deemed to be concerned or interested, financially or otherwise, in the resolution set out at Item No. 8.

The Board recommends the Special Resolution as set out in Item No. 8 of this notice for the approval of Members.

Management Discussion and Analysis Report

INDUSTRY STRUCTURE AND DEVELOPMENTS

The Indian textile industry continued to exhibit resilience and competitiveness in global markets during FY 2025–26, supported by steady export demand, policy initiatives, and expanding market access through strategic trade agreements.

India's total textile exports, including handicrafts, increased to Rs. 3,16,334.9 crore in FY 2025–26 from Rs. 3,09,859.3 crore in FY 2024–25, registering a growth of 2.1%. The growth reflects the sector's ability to maintain its global market position amidst evolving international trade dynamics and macroeconomic conditions.

Ready-Made Garments (RMG) remained the largest contributor to textile exports, with exports increasing by 2.9% to Rs. 1,39,349.6 crore during FY 2025–26 from Rs. 1,35,427.6 crore in the previous year. Exports of cotton yarn, fabrics, made-ups, and handloom products remained stable at Rs. 1,02,399.7 crore, compared to Rs. 1,02,002.8 crore in FY 2024–25, reflecting a marginal growth of 0.4%. The man-made textiles segment continued to witness healthy momentum, with exports of man-made yarn, fabrics, and made-ups rising by 3.6% to Rs. 42,687.8 crore.

India's textile exports witnessed broad-based geographical diversification, with export growth recorded across more than 120 destinations during April 2025 to February 2026. Key export markets demonstrating notable growth included the UAE, United Kingdom, Germany, Spain, Japan, Egypt, Nigeria, Senegal, and Sudan, highlighting increasing acceptance of Indian textile products across both developed and emerging markets.

Significant progress was also achieved on the trade policy front during FY 2025–26. The implementation of the India–EFTA Trade and Economic Partnership Agreement (TEPA), the signing of the India–UK Comprehensive Economic and Trade Agreement (CETA), the India–Oman Comprehensive Economic Partnership Agreement (CEPA), the announcement of the India–New Zealand Free Trade Agreement (FTA), and the conclusion of the India–European Union Free Trade Agreement (EU FTA) are expected to create substantial opportunities for the textile and apparel industry.

These agreements are anticipated to enhance preferential market access, reduce tariff barriers, strengthen supply-chain integration, and facilitate increased investments and technology collaborations. Furthermore, they are expected to support the growth of textiles, apparel, handicrafts, and technical textiles while accelerating India's integration into global value chains and promoting export diversification.

Overall, the sustained growth in textile exports, combined with continued policy support and expanding international trade opportunities, provides a positive outlook for the Indian textile industry. The sector remains well-positioned to capitalize on emerging global opportunities, drive value-added exports, generate employment, and contribute meaningfully to India's economic growth. (Source: www.pib.gov.in)

GROWTH DRIVERS

India's textile and apparel industry has evolved into a diversified and globally competitive ecosystem, capable of catering to a broad spectrum of demand ranging from value-oriented mass-market products to specialized, high-value textile segments. To further strengthen the sector's competitiveness, enhance manufacturing capabilities, attract investments, and support employment generation, the Government has continued to implement a range of targeted policy measures and structural reforms.

The Production Linked Incentive (PLI) Scheme for Textiles remains one of the key initiatives aimed at accelerating growth in the sector. Operational through FY 2029-30, the scheme focuses on promoting the production of Man-Made Fibre (MMF) apparel, MMF fabrics, and technical textile products. The initiative seeks to encourage investments, facilitate scale creation, improve global competitiveness, generate employment opportunities, and support the development of globally competitive textile enterprises.

The Government has also undertaken several measures to strengthen the cotton ecosystem, which forms the backbone of India's textile value chain. The cotton sector supports approximately six million farmers and provides livelihoods to an estimated 40–50 million people across various stages of the value chain. To improve transparency and ease of participation for farmers, the Kapas Kisan mobile application was introduced, enabling farmer self-registration and digital slot booking. Further, the launch of the 'Kasturi Cotton Bharat' Programme is expected to enhance the quality perception and global acceptance of Indian cotton, thereby strengthening India's position in international markets. The deferment of the Quality Control Order (QCO) 2023 for cotton bales until August 2026, provides the industry with additional time to align with quality and compliance requirements.

Sustainability and circularity continue to gain prominence within the textile industry. In this regard, a tripartite Memorandum of Understanding (MoU) was signed among the Textiles Committee, Government e-Marketplace (GeM), and the Standing Conference of Public Enterprises (SCOPE), along with initiatives such as the Circle Back Campaign, National Handloom Development Programme, and the National Textile Sustainability Council. These efforts are aimed at encouraging the adoption of sustainable practices, promoting the procurement of upcycled products, and advancing circular economy principles across the textile value chain.

In addition, the next phase of Goods and Services Tax (GST) rationalization implemented during 2025 is expected to improve industry competitiveness by reducing tax-related inefficiencies, lowering costs for manufacturers, enhancing affordability for consumers, and supporting export growth and employment generation.

The continued focus on manufacturing incentives, textile sector development, sustainability, labour reforms, and tax rationalization underscores the Government's commitment to fostering a robust and globally competitive textile industry. Supported by sustained export momentum, expanding market reach, and increasing participation from MSMEs and value-added segments, the Indian textile and apparel sector remains well-positioned to enhance its global standing and deepen its integration into international value chains in the years ahead.

OPPORTUNITIES AND THREATS

The textile industry continues to present significant growth opportunities driven by rising domestic consumption, increasing urbanization, growing disposable incomes, and evolving fashion preferences. Government initiatives promoting manufacturing, technical textiles, exports, and infrastructure development are expected to strengthen the sector's long-term growth prospects. The shift of global sourcing away from traditional manufacturing hubs, coupled with the increasing preference for sustainable and value-added textile products, offers Indian textile manufacturers an opportunity to expand their market presence in international markets.

The textile industry operates in a highly competitive environment and remains exposed to various external and internal risks. Fluctuations in raw material prices, particularly cotton, man-made fibres, dyes, and chemicals, may adversely impact operating margins. Global economic uncertainties, geopolitical developments, inflationary pressures, and changing trade policies can affect demand in key export markets. The industry also faces challenges arising from increasing energy and logistics costs, foreign exchange volatility, stringent environmental and sustainability compliance requirements, and intense competition from both domestic and international players. Additionally, supply chain disruptions, labour shortages, and rapidly changing consumer preferences may pose challenges to business performance and profitability.

GOVERNMENT INITIATIVES

India's textile industry remains one of the country's oldest, most diversified, and employment-intensive sectors, with a legacy deeply rooted in its cultural and economic history. Recognising the sector's significant contribution to employment generation, exports, rural livelihoods, and manufacturing growth, the Union Budget 2026–27 has placed renewed emphasis on strengthening the textile ecosystem and enhancing its global competitiveness. The continued policy focus underscores the sector's strategic importance in supporting India's long-term economic development and manufacturing ambitions.

The Indian textile industry benefits from several inherent competitive advantages. India is the world's largest cultivator of cotton by acreage, the largest producer of jute, and the second-largest producer of both silk and cotton. The country also holds a strong position in the man-made fibre (MMF) segment and is the world's second-largest producer of polyester and viscose fibres. These strengths provide a robust foundation for the development of an integrated textile value chain capable of serving diverse domestic and international market requirements.

- **National Fibre Scheme:** This scheme aims to build self-reliance across the fibre spectrum by supporting natural fibres such as silk, wool, and jute, alongside man-made fibres (MMF) and new-age fibres. By strengthening domestic fibre availability and encouraging innovation in advanced textile materials, the scheme seeks to reduce import dependence, promote diversification beyond cotton, and enhance India's capability in high-performance and specialised textiles.
- **Textile Expansion and Employment Scheme:** Focused on modernisation of traditional textile clusters, this component provides capital support for machinery, technology upgradation, and the establishment of common testing and certification centres. The scheme is expected to enhance productivity, improve quality compliance and enable large-scale employment generation.
- **National Handloom and Handicraft Programme:** Existing schemes for handloom and handicrafts will be integrated and strengthened under a unified national programme. The objective is to provide targeted and effective support to weavers and artisans, improve incomes, ensure market linkages, and preserve India's rich textile heritage. Additionally, the Government is providing financial assistance for the promotion of natural and vegetable dyes and for the establishment of dye houses, through two components viz. the Mega Cluster Development Programme and Need-based Special Infrastructural Projects.
- **Tex-Eco Initiative:** This initiative promotes globally competitive and environmentally sustainable textiles and apparel (T&A) manufacturing. It aligns domestic production with international sustainability standards and supports access to emerging green markets.
- **Samarth 2.0:** An upgraded skilling programme, Samarth 2.0 aims to modernise the textile skill ecosystem through deeper collaboration with industry and academic institutions. It seeks to ensure the availability of industry-ready skilled manpower across the value chain.

INDUSTRY OUTLOOK

The policy focus for India's textile and apparel sector continues to be centred on scale, modernization, and enhanced competitiveness. Key initiatives such as the development of integrated textile parks, support for man-made fibres (MMF) and technical textiles, investment promotion measures, and efforts to ease raw material constraints are expected to strengthen the industry's manufacturing capabilities and drive higher value addition across the textile value chain.

The Ministry of Textiles has also outlined an ambitious growth roadmap for the sector. With textile exports currently estimated at approximately Rs. 3 lakh crore, the Government's Vision 2030 aims to expand exports to nearly Rs. 9 lakh crores through stronger domestic manufacturing capabilities and wider global market outreach. This vision reflects the significant growth potential of the Indian textile industry and its increasing importance in the country's export strategy.

Trade developments are expected to further support the sector's growth trajectory. The India–European Union Free Trade Agreement (EU FTA) is regarded as a transformational development for India's textile and apparel industry. The agreement provides zero-duty access for textiles and clothing across all tariff lines and reduces tariffs by up to 12%, significantly improving the competitiveness of Indian products in the European market.

The India–EU FTA has the potential to significantly expand India's textile and garment exports to Europe by creating a more favourable duty structure, particularly benefiting labour-intensive segments of the industry.

Further, the Union Budget 2026–27 continues to emphasize employment generation, inclusive growth, sustainability, and coordinated implementation of sectoral initiatives. The collaborative approach involving the Ministry of Textiles, State Governments, industry participants, MSMEs, artisans, and skilling institutions is expected to strengthen the sector's growth ecosystem and reinforce India's position as a competitive, reliable, and forward-looking global textile and apparel hub. RISKS AND CONCERNS

Management Discussion and Analysis mainly comprise the statements which may, inter alia, involve predictions based on perceptions and may, therefore, be prone to risks and uncertainties. It is the sum of the Company's expectations, beliefs, estimates and projections which may be forward looking or depressing within the meaning of applicable laws and regulations. The actual results could differ materially from those expressed herein specifically or impliedly. The shareholders are cautioned to keep this in view in conjunction with the Company's financial statements.

SEGMENT-WISE PERFORMANCE

The Company doesn't have separate business segments, however it operates through three integrated business divisions comprising Yarn, Fabric and Garments. Its diversified product portfolio includes spun synthetic blended yarn, wool and wool-mix yarn, worsted and synthetic fabrics, cotton and linen fabrics, technical textiles, shirting fabrics and readymade garments. The Company's vertically integrated manufacturing model enables operational synergies across the textile value chain and supports its presence in both domestic and international markets.

During the year, revenue from operations of all three divisions of the Company were as follows:

Division	2025-26		2024-25	
	Revenue (Rs. In Crores)	Volume	Revenue (Rs. In Crores)	Volume
Yarn	449	194 Lakhs Kgs.	459	206 Lakhs Kgs.
Fabric	569	230 Lakhs Mtrs.	540	232 Lakhs Mtrs.
Garment	324	39 Lakhs Pcs.	275	37 Lakhs Pcs.
Total	1,342		1,274	

OUTLOOK

The Company's growth strategy is centred on increasing domestic consumption of fabrics and garments and expanding opportunities in global textile and apparel markets. Supported by improving demand trends in key export markets and a gradual recovery in retail consumption, the Company remains optimistic about its medium-term growth prospects.

The Company continues to strengthen its divisional structure with focused growth strategies for the Yarn, Fabric, and Garment businesses. Emphasis is being placed on expanding the contribution of the Fabric and Garment divisions, which offer higher value addition and stronger margin potential. Management expects these segments to play a leading role in driving future growth and profitability.

The Company remains focused on expanding its domestic market presence, strengthening relationships with global customers, increasing penetration in the global markets, improving operational efficiencies and enhancing its product mix through greater emphasis on value-added textiles and garments. The anticipated benefits from international trade agreements and ongoing customer additions across key markets are expected to support growth in the coming years.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The Company's operational performance during the year reflected both the challenges and opportunities prevailing in the textile industry. Global supply chain diversification and the continuing China+1 sourcing strategy have strengthened India's position as a preferred textile manufacturing destination. Government initiatives aimed at promoting investments, exports and manufacturing competitiveness are expected to provide further support to the sector over the medium term.

During FY 2025-26, the Company reported Total Income of Rs. 1,369.7 crore as against Rs. 1,307.5 crore in FY 2024-25, registering growth of 4.8%. EBITDA increased by 22.5% to Rs. 143.6 crore from Rs. 117.2 crore in the previous year, while

EBITDA margin improved to 10.5% from 9.0%. Profit Before Tax stood at Rs. 39.0 crore compared with Rs. 29.7 crore in FY25, while Profit After Tax increased to Rs. 28.4 crore from Rs. 21.4 crore, reflecting growth of 32.8% year-on-year.

The improvement in profitability was primarily driven by better sales realizations, stronger contribution from value-added products, improved product mix, and higher revenue contribution from the Fabric and Garment divisions. Enhanced operating efficiencies and better fixed-cost absorption also supported margin expansion during the year.

However, the Company continued to face industry-wide challenges, including elevated raw material costs, higher employee expenses arising from wage revisions, labour shortages in certain operations, geopolitical uncertainties, and disruptions in select export markets. These factors impacted demand visibility and exerted pressure on operating performance across certain business segments.

Looking ahead, management remains focused on improving product mix, enhancing operational efficiencies, strengthening customer relationships and increasing the share of value-added Fabric and Garment businesses. Supported by a healthy order pipeline, expanding customer base, and favourable long-term industry trends, the Company remains well-positioned to capitalize on future growth opportunities.

INTERNAL CONTROL SYSTEMS & ADEQUACY

Annexure- VI to the Directors' Report

Particulars of Energy Conservation, Technology Absorption and Foreign Exchange Earnings and Outgo, as per Section 134(3)(m) of the Companies Act, 2013 and the Rules made therein and forming part of the Directors' Report for the year ended March 31, 2026

A) CONSERVATION OF ENERGY

(i) Step taken or impact on conservation of energy

All business units continued their efforts to improve energy usage efficiencies. Various key performance indicators like specific energy consumption (energy consumed per unit of production), specific energy costs were continuously tracked to monitor alignment with the Company's overall sustainability approach.

a. Energy Conservation Measures taken for the Financial Year

1. Installation of 7 (seven) Energy Efficient Fans on existing Motor in H-plant section, which resulted in reduction of energy consumption.
2. Replacement of normal fans with 200 BLDC Fans, resulting in saving of 25,958.40 KWH/year.
3. Replacement of 1 (One) 15KW IE3 Motor with 13.2 KW EC Energy Efficient Motor in Carding Mi-1 R/A/F hence saving of 2.9 KW/hr.
4. Use of 2 Small Compressor of 1000 CFM Capacity and stop IR Compressor of capacity 3000 CFM to save the excess CFM generation at compressor end.
5. Replacement of Jet Spray Compressed Air System & Pump with Humidifier to save power.
6. Operating H-plant Fans on co-related frequencies to achieve proper RH% during winter season.
7. Use of better steam and boiler operations, saving 3,40,485 Kg. briquette/year.

As a result of the above activities, we achieved cost savings of approximately Rs. 213.98 Lakhs

Upgradation of the PV Spinning machineries

Replacement of 23 (Twenty-Three) old C1/2 carding machines with new LMW LC361 carding models for quality of product improvement. Integrated RTS in the LR6/s ring frame machines to streamline operations and optimize energy use. Installed 1 (One) Draw frame LDF3 machine – (Make-LMW).

Upgradation of the Garment machineries

Upgraded 6 (Six) pressing machines from PCB control to PLC/HMI automation. Installed Barudan BEKY-Y906II 9-Needle/6-Head Embroidery machine, so that production capacity can be increased.

(ii) The Steps taken by the Company for utilizing alternate sources of energy

We currently operate a co-generation thermal power plant and a solar power plant to effectively meet the power requirements of our Company.

In addition, we are in the process of applying for the upgradation of our existing 33 KV incoming power source through AVVNL to a 132 KV power transmission system. This enhancement aims to ensure greater power stability, reduce transmission losses and support future energy demands.

We are also planning to purchase the Hybrid – Power through Power Exchange Board to reduce the effect of Carbon foot prints generated by the plant, machineries and correlated activities and power components.

(iii) The Capital investment on energy conservation equipment

For the Financial Year 2025-26 total expenditure for energy saving equipment is about Rs. 92.84 Lakhs.

B) TECHNOLOGY ABSORPTION 2025-26

(i) The efforts made towards technology absorption

- a) Achieved electricity cost savings of Rs.74.97 Lakhs per year by maintaining optimal power factor throughout the year under the AVVNL (Rajasthan State Electricity Board) 33KV line, availing maximum rebates.
- b) Integrated RTS in the LR6/s Ring Frame machines to streamline operations and optimize energy use.
- c) Upgraded pressing machines with PLC / HMI automation.
- d) Developed in-house Laser Cutting CNC Machine for fabric cutting.
- e) Installed Barudan 9 Needle/ 6 Head Embroidery Machine for in-house embroidery work.

(ii) **Benefits derived:** Product improvement, cost reduction, new product development and import substitution, improved fabric deliveries to customers, more reliable machines, in-house cutting facilities, enhanced embroidery capacity, and better delivery support.

(iii) **Technology Imported:**

- a) Installed 2 (Two) latest Technology Fongs Dyeing Machines in process house (BTM).
- b) Belt Press Machine Installed in ETP for Sludge Water Removing.
- c) 1500 CFM Compressor will arrive in July, 2026 and installation will be completed in August, 2026. After installation the Company will save approximately 1500 unit per day against Compressed Air Power Consumption.
- d) 85 KW R F Dryer Installed in Dye House for Fibre dyeing.
- e) Installed Barudan BEKY-Y906II 9 Needle/ 6 Head Embroidery Machine.

(iv) **Research & Development:**

Investment of Rs. 31.56 Lakhs for development of new product and in house Laser Cutting Machine for fabric.

C) Foreign Exchange Earnings and Outgo

During the year, foreign exchange outgo was Rs. 6,871.90 Lakhs (which includes import of capital goods, stores & spares, coal, raw materials, consumables, payment of consultancy, dividend and travelling expenses etc.) while foreign exchange earned was Rs. 60,207.43 Lakhs. The details have been given under Notes to Financial Statements.

(SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Ind AS Financial Statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Ind AS Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Ind AS Financial Statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed the matter
<p><u>Existence, Valuation of inventory and significant judgments, estimates relating to provision for obsolescence of slow and non-moving inventory</u></p> <p>Inventories aggregate to Rs. 30,254.98 Lakhs as at March 31, 2026.</p> <p>Inventory comprises of raw material including packing material, work in progress, finished goods and stores and spares.</p> <p>We have identified the inventories as key audit matter because inventory valuation and provision for obsolescence of slow and non-moving inventory requires significant judgement and estimate, Further, inventory is material to the financial statements.</p> <p>Refer note 1(C)(6) and Note 10 to the Standalone Ind AS financial statements.</p>	<ul style="list-style-type: none"> • We read and understood the Company's accounting policy for inventory valuation. • Obtained understanding of the management's process of inventory valuation and inventory physical verification performed at year end. • Observed the physical stock count process on a sample basis for selected locations by attending the physical stock-taking exercise conducted by management; further, we physically verified items on test check basis. • We have also been provided the physical verification report covering major inventory which is certified by the Internal Audit Department. For the inventory lying with the third party, management has provided the confirmation obtained from the third parties. • We obtained understanding of the inventory valuation process, and the assumptions used by the management in the process of calculation of inventory provision. We have tested management review controls and operating effectiveness of controls related to purchase, sales and Inventory verification. • The Company has a policy for write-down of inventories to net realisable value on account of obsolescence and slow -moving inventory which is recognised on a case-to-case basis based on the management's assessment. Write-down of inventories to net realisable value is subjective owing to the nature of inventories and is dependent on significant judgments around probability of decrease in the realisable value. • We tested the basis of computation of net realisable value including arithmetical accuracy, validity of the data used and provision for slow or non-moving inventory and obsolescence at the reporting date is appropriate, by assessing the methodology and assumptions adopted by management supported by analysis of historical data

	<ul style="list-style-type: none"> • We performed cut off testing for purchase and sales transactions made near the reporting date to assess whether transactions are recorded in the correct period by testing appropriate records, • Ensured that the closing Inventory valuation is in line with the Stock and Debtors statement furnished to the lenders for security purpose is reconciled with books of account on quarterly basis.

Information Other than the Standalone Ind AS Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Company's annual report but does not include the Standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the Standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the company in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guaranteed that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Ind AS Financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "**Annexure A**", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

“Annexure B” to the Independent Auditor’s Report of even date on the Standalone Ind AS Financial Statements of Banswara Syntex Limited the year ended March 31, 2026

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Banswara Syntex Limited** (“the Company”) as of **March 31, 2026** in conjunction with our audit of the Standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on, “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial

controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on, “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

Standalone Financial Statement for the year ended 31 March 2026**1. Overview & Material Accounting Policies****A. Corporate Information**

Banswara Syntex Limited (“the Company”) is a Company domiciled in India and limited by shares (CIN: L24302RJ1976PLC001684). The shares of the Company are publicly traded on the National Stock Exchange of India Limited and Bombay Stock Exchange Limited. The address of the Company’s registered office is Industrial Area, Dahod Road, Banswara Rajasthan.

The Company is a vertically integrated textile mill manufacturing man-made synthetic blended Yarn, wool and wool mixed yarn, all type of Fabrics, Jacquard Furnishing Fabrics, besides production of Readymade Garments and Made-up’s.

These Standalone Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the ‘Ind AS’) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the ‘Act’) and other relevant provisions of the Act.

These Standalone Financial Statements were authorized for issue by Board of Directors on 19 May 2026.

B. Basis of Preparation of Standalone Financial Statement**1. Compliance with Ind AS**

These Standalone Financial Statements are prepared on going concern basis following accrual basis of accounting and comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto, the Companies Act, 2013.

2. Basis of measurement/Use of Estimates

- (i) The Standalone Financial Statements are prepared on going concern and accrual basis under the historical cost convention except certain financial assets, financial liabilities and defined benefits plans- plan assets that are measured at fair value. The methods used to measure fair values are discussed in notes no. 53 to Standalone Financial Statements.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

- (ii) The preparation of Standalone Financial Statements requires judgments, estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the Standalone Financial Statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized. Major Estimates are discussed in Part D.

3. Recent pronouncement

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

In May 2025, MCA notified amendments to Ind AS 21 - The Effects of Changes in Foreign Exchange Rates, applicable w.e.f. April 1, 2025. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

In August 2025, MCA notified the following amendments to:

- a. Ind AS 1, Presentation of Financial Statements, applicable w.e.f. April 1, 2025 – The amendment relates to classification of liabilities as current or noncurrent and non-current liabilities with covenants. In the context of classifying a liability as current, it removes the requirement of existence of a right to defer settlement for at least 12 months after the reporting date and instead requires that the said right should exist on the reporting date and have substance. The amendment also introduces guidance on classification of liabilities with covenants. The Company has no impact of these amendments in its classification criteria of current and non-current liabilities.
- b. Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments: Disclosures, applicable w.e.f. April 1, 2025 – The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

4. Functional and presentation currency

These Standalone Financial Statements are presented in Indian Rupees (INR), which is the Company’s functional currency. All financial information presented in INR has been rounded to the nearest Lakhs (up to two decimals), except as stated otherwise.

C. Material accounting policies

A summary of the material accounting policies applied in the preparation of the Standalone Financial Statements are as

given below. These accounting policies have been applied consistently to all periods presented in the Standalone Financial Statements.

1. Property, plant & equipment

1.1. Initial recognition and measurement

Property, plant and equipments ("PPE") are measured at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset, inclusive of non-refundable taxes & duties, to the location and condition necessary for it to be capable of operating in the manner intended by management.

Freehold land is carried at cost.

When parts of an item of property, plant and equipments have different useful lives, they are recognized separately.

Spare parts are capitalized when they meet the definition of PPE, i.e. when the Company intends to use these for a period exceeding 12 months.

On transition to IND AS, the Company has elected to continue with the carrying value of all of its PPE recognized as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the PPE.

1.2. Depreciation

Depreciation is recognized in statement of profit and loss on Straight Line Method (SLM) over the estimated useful life of property, plant and equipment as mentioned in Schedule II of the Companies Act, 2013, except in case of Plant & Machinery where the useful life has been taken as ascertained by technical experts of the Company. Considering materiality of assets costing less than Rs. 5,000 are fully depreciated in the year of purchase/acquisition. The Company provide pro-rata depreciation from/to the date on which asset is ready to use/ disposed off as appropriate.

Estimated useful life of the assets is given below :

Buildings	3 to 60 Years
Plant & Equipments	3 to 30 Years
Electric & Water Supply Installation	10 Years
Furniture & Fixtures	10 Years
Office Equipments	3 to 6 Years
Vehicles	8 to 10 Years
Capital Spares	2 to 15 Years

Leasehold lands are amortized over the lease term unless it is reasonably certain that the Company will obtain ownership by the end of the lease term.

Depreciation on additions to/deductions from property, plant and equipment during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

In circumstance, where a PPE is abandoned, the cumulative capitalized costs relating to the property are written off in the same period.

2. Capital work-in-progress

- The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.
- Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.
- Capital Stores are valued at weighted average cost. Specific provision is made for likely diminution in value, where required.

3. Intangible assets and intangible assets under development

3.1. Initial recognition and measurement :

Intangible assets are measured on initial recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

Expenditure incurred which are eligible for capitalizations under intangible assets are carried as intangible assets under development till they are ready for their intended use.

3.2. Amortization

Intangible assets having definite life are amortized on straight line method in their useful lives. For amortization, Useful life of computer software is estimated at six years and useful life of Brands is estimated at five years.

4. Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale. Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete.

All other borrowing costs are charged to revenue as and when incurred.

5. Investment in Equity instrument of Joint Venture and Subsidiary

Investment in equity shares of subsidiary and joint venture are accounted at cost in the Standalone Financial Statement and the same are tested for impairment in case of any indication of impairment.

6. Inventories

Inventories are valued at the lower of cost or net realizable value.

Cost of raw material, stores spares, packing material etc. includes cost of purchase and other cost incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Cost is determined on weighted average cost basis.

Cost of finished goods and work-in-progress includes the cost of conversion based on normal capacity and other costs (excluding borrowing cost) incurred in bringing the inventories to their present location and condition. The cost of finished goods and work-in-progress are computed on weighted-average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Waste is valued at net realizable value.

Spare parts those does not meet definition of Property, Plant and Equipment are carried as inventory.

The diminution in the value of obsolete, unserviceable, slow moving/non-moving inventory is ascertained on review based on technical assessment, provided for, and shown as net of provision.

Transit stock are valued at cost.

7. Cash and Cash Equivalent

Cash and cash equivalent in the balance sheet comprise cash at banks and cash on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

8. Government Grants

Government Grants related to income are recognized in the statement of profit and loss in the same period as the related cost which they are intended to compensate are accounted for. Government Grant/subsidy related to subvention of a particular expense is deducted from that expense in the year of recognition of that Government grant/subsidy.

Government grants relating to the purchase of property, plant and equipment are included in liabilities as deferred income and are credited to Statement of Profit and Loss on straight –line basis over the expected lives of related assets and presented within other income.

9. Provisions and Contingent liabilities

Provisions:-

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

Contingent liabilities:-

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the

occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

10. Foreign currency transactions and translation

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in Statement of profit or loss in the year in which it arises.

Non-monetary items are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

11. Revenue

Revenue is to be recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services.

a) Income from Sale of Goods

Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts, rebates, refunds, price concessions, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government.

The Company recognizes sales return only when the goods are actually returned by the customer. Therefore, a refund liability which is included in current financial liabilities or is reduced from current financial assets, is recognized for the goods actually returned.

Revenue from sale of products are recognized at a point in time on transfer of promised product to customer upon transfer of control in an amount that reflects the consideration that the company expects to receive in exchange for those product.

b) Income from Job Work

Income from job work charges is recognised at a point in time when the control is transferred usually when the material is fully processed and dispatched to the customer.

c) Other Export Benefit/Incentives

Export benefits arising from Duty Drawback scheme, RoDTEP and other eligible export incentives are recognised on post export basis at the rate at which the entitlements accrue and is included in the 'Other Operating Income'.

Interest Income

For all financial instruments classified and measured at amortized cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the Statement of Profit or loss.

Dividend

Dividend Income is recognized when the Company's right to receive is established.

Employee Benefits

12.1 Short Term Employee Benefit

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under performance related pay if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

1.2 Post-Employment benefits

Employee benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit):-

12.2.1 Defined contribution plans

Defined contribution plans are those plans in which an entity pays fixed contribution into separate entities and will have

no legal or constructive obligation to pay further amounts. Provident Fund and Employee State Insurance are Defined Contribution Plans in which the Company pays a fixed contribution based on the applicable law.

1.1.2 Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Company pays Gratuity as per provisions of the Gratuity Act, 1972. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the company, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses are recognized in Other Comprehensive Income ("OCI") in the period in which they arise.

12.3 Other long-term employee benefits

Benefits under the Company's leave encashment, long-service award and economic rehabilitation scheme constitute other long term employee benefits. The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method by a qualified actuary. Actuarial gains or losses are recognized in statement of profit or loss in the period in which they arise.

13 Taxes

Provision for current tax is made as per the provision of the Income tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Management periodically evaluates positions taken in the tax return with respect to applicable tax regulations which are subject to interpretation and establishes provisions where appropriate.

Deferred tax is provided using the Balance Sheet method on temporary difference between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets and liabilities are measured based on tax rates (and tax law) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity).

14 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration.

As a lessee (Assets taken on lease)

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognize lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Lease Liabilities

At the commencement date of the lease, the Company recognize lease liabilities measured at the present value of lease payments to be made over the contractual non cancellable lease term, for which enforceable rights is available. In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date, if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion on interest and reduced for the lease payment made.

Right-of-use

The Company recognize right-of-use assets at the commencement date of the lease (i.e., the date the underlying assets is available for use). Right-of-use are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. Perpetual Right of Use assets related to land are not depreciated but tested for impairment loss, if any.

Short-term lease and lease of low-value-assets

The Company applies the short –term lease recognition exemption to its short-term leases of Property, Plant and Equipment

(i.e those leases that have lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemptions to lease that are considered of low value and is not intended for sublease. Lease payments on short-term leases and leases of low-value assets are recognized as expenses on a straight-line basis over the lease term or another systematic basis if that basis is more representative of the pattern of the lessee's benefits.

As a lessor

Rental income from operating lease is recognized on straight-line basis over the term of the relevant lease except where another systematic basis is more representative of the time pattern of the benefits derived from the assets given on lease.

15 Impairment of Non-financial Assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU").

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in statement of profit or loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of goodwill of that CGU, if any and then the assets of the CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

16 Dividends to Share Holders

Interim dividends and Final dividends payable to a Company's shareholders are recognized in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

17 Statement of Cash Flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS-7 'Statement of cash flows.

18 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All Financial Assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction cost that are attributable to the acquisition of the Financial Asset. However, trade receivables that do not contain a significant financing component are measured at transaction price. Transaction costs directly attributable to the acquisition of financial assets measured at fair value through profit or loss are recognized immediately in the Statement of Profit and Loss.

Subsequent measurement

For the purpose of subsequent measurement, Financial Assets are classified in four categories:

- Financial Assets at amortised cost
- Debt Instruments at fair value through Other Comprehensive Income (FVTOCI)
- Equity Instruments at fair value through Other Comprehensive Income (FVTOCI)
- Financial Assets and derivatives at fair value through profit or loss (FVTPL)

Financial Assets at amortized cost

A Financial Asset is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial Assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are an integral part of the EIR.

The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. Apart from the same, any income or expense arising from remeasurement of financial assets measured at amortised cost, in accordance with Ind AS 109, is recognized in the Statement of Profit and Loss. This category generally applies to trade and other receivables.

Debt Instruments at fair value through Other Comprehensive Income (FVTOCI)

A 'Debt Instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent solely payments of principal and interest (SPPI).

Debt Instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair Value movements are recognized in the Other Comprehensive Income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the Equity to the Statement of Profit and Loss.

Interest earned whilst holding FVTOCI Debt Instrument is reported as interest income using the EIR method.

Equity Instruments at fair value through Other Comprehensive Income (FVTOCI)

All equity investments in entities are measured (except equity investment in joint venture and subsidiary) at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instruments, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However the company may transfer cumulative gain or loss within the equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Financial Assets and derivatives at fair value through profit or loss (FVTPL)

FVTPL is a residual category for financial assets. Any financial assets, which does not meet the criteria for categorization as at amortised cost or as FVTOCI, is classified as at FVTPL.

This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Debt Instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss. Interest income on such instruments has been presented under interest income.

Impairment of financial assets

The Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the

- a) Financial Assets that are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance

Simplified Approach

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade Receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. On that basis, the Company estimates provision on trade receivables at the reporting date.

General Approach

For recognition of impairment loss on other financial assets, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-months ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a

subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-months ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-months ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

Financial liabilities

Initial recognition and measurement

All Financial Liabilities are recognized initially at fair value and, in the case of liabilities subsequently measured at amortised cost, they are measured net of directly attributable transaction cost. In case of Financial Liabilities measured at fair value through profit or loss, transaction costs directly attributable to the acquisition of financial liabilities are recognized immediately in the Statement of Profit and Loss.

The Company's Financial Liabilities include trade and other payables, loans and borrowings including derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

A. Financial Liabilities at fair value through profit or loss

Financial Liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through the Statement of Profit and Loss. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

B. Financial Liabilities at amortised cost

Financial Liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Gains and losses are recognized in the Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Derivative financial instruments

The Company uses forwards to mitigate the risk of changes in exchange rates. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss.

19. Current and non-current classification

All assets and Liabilities have been classified as current or non-current. the Company has determined its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

Deferred tax assets/liabilities are classified as non-current

D. Major Estimates and Judgments made in preparing Standalone Financial Statements

The preparation of the Company's Standalone Financial Statements requires management to make judgements and estimates that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. These include recognition and measurement of financial instruments, estimates of useful lives and residual value of Property, Plant and Equipment and Intangible Assets, valuation of inventories, measurement of recoverable amounts of cash-generating units, measurement of employee benefits, actuarial assumptions, provisions etc.

Uncertainty about these judgments and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The Company continually evaluates these estimates and assumptions based on the most recently available information. Revisions to accounting estimates are recognized prospectively in the Statement of Profit and Loss in the period in which the estimates are revised and in any future periods affected.

A. JUDGEMENTS

In the process of applying the company's accounting policies, management has made the following judgements, which have the significant effect on the amounts recognised in the Standalone Financial Statements:

Materiality

Ind AS requires assessment of materiality by the Company for accounting and disclosure of various transactions in the Standalone Financial Statements. Accordingly, the Company assesses materiality limits for various items for accounting and disclosures and follows on a consistent basis. Overall materiality is also assessed based on various financial parameters such as Gross Block of assets, Net Block of Assets, Total Assets, Revenue and Profit Before Tax. The materiality limits are reviewed and approved by the Board.

Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter. In the similar line, management also on the basis of best judgment and estimate determines the net realizable value of the Inventories to make necessary provision.

B. MAJOR ESTIMATES

The key assumptions concerning the future and other key sources of estimation at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumptions when they occur.

1. Useful life of property, plant and equipment and intangible assets

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Useful life of the assets other than Plant and machinery are in accordance with Schedule II of the Companies Act, 2013.

The Company reviews at the end of each reporting date the useful life of property, plant and equipment, and are adjusted prospectively, if appropriate.

Intangible assets is being amortized on straight line basis over the period of six years.

2. Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

3. Income Taxes

The Company uses estimates and judgements based on the relevant facts, circumstances, present and past experience, rulings, and new pronouncements while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised.

4. Estimation of net realisable value of inventories

Inventories are stated at the lower of cost and net realisable value. In estimating the net realisable value of inventories the Company makes an estimate of future selling prices and costs necessary to make the sale.

5. Impairment of Financial Assets

The impairment provisions for trade receivables are made considering simplified approach based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation based on the company's past history and other factors at the end of each reporting period. In case of other financial assets, the Company applies general approach for recognition of impairment losses wherein the Company uses judgement in considering the probability of default upon initial recognition and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

Description of Risk Exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

a) Asset volatility

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. Most of the plan asset investments are in fixed income securities with high grades and in government securities. These are subject to interest rate risk and the fund manages interest rate risk with derivatives to minimize risk to an acceptable level. A portion of the funds are invested in equity securities and in alternative investments which have low correlation with equity securities. The equity securities are expected to earn a return in excess of the discount rate and contribute to the plan deficit. The Company has a risk management strategy where the aggregate amount of risk exposure on a portfolio level is maintained at a fixed range. Any deviations from the range are corrected by rebalancing the portfolio. The Company intends to maintain the above investment mix in the continuing years.

b) Discount rate

A decrease in discount rate will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

c) Inflation risks

In the pension plans, the pensions in payment are not linked to inflation, so this is a less material risk.

d) Life expectancy

The pension plan obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plans' liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

(e) Investment Risk

If Plan is funded then assets liabilities mismatch and actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.

(f) Salary Increases

Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.

(g) Mortality & disability – Actual deaths and disability cases proving lower or higher than assumed in the valuation can impact the liabilities.

(h) Withdrawals – Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact Plan's liability.

The Company ensures that the investment positions are managed within an asset-liability matching (ALM) framework that has been developed to achieve long-term investments that are in line with the obligations under the employee benefit plans. Within this framework, the Company's ALM objective is to match assets to the pension obligations by investing in long-term fixed interest securities with maturities that match the benefit payments as they fall due and in the appropriate currency.

the Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. the Company has not changed the processes used to manage its risks from previous periods. the Company uses derivatives to manage some of its risk. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

C) Other Long Term Employee Benefit Leave Policy

Other long term employee benefit includes earned leave to the employees of the Company which accrue annually for 24 days. Earned leave can be accumulated up to 90 days while in service. These accumulated earned leave are encashable at the time of retirement or leaving the services of the Company. The scheme is unfunded and liability for the same is recognised on the basis of actuarial valuation. A provision of Rs. 180.24 Lakhs (Previous Year: Rs. 98.42 Lakhs) have been made on the basis of actuarial valuation and debited to the Statement of Profit and Loss.

Amount of Rs. 278.74 Lakhs (Previous Year; Rs. 188.64 Lakhs) is recognised as expenses and included in Note No 36 "Employee benefit expenses"

B) Financial risk management
Financial Risk Management

The Company's principal financial liabilities comprise Borrowings, trade payables, Lease Liabilities and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade & other receivables, cash & cash Equivalent, Investment, deposits & other assets.

Company is exposed to following risk from the use of its financial instrument:

- (a) Credit Risk
- (b) Liquidity Risk

(c) Market Risk

- (i) Foreign Currency Risk
- (ii) Interest Rate Risk

The Company's Financial Risk Management is an integral part of how to plan and execute its business strategies. The Company's financial risk management is set by the Managing Board.

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. Credit risk arises principally from trade receivables, loans & advances, cash & cash equivalents and deposits with banks and financial institutions.

Trade Receivable

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 30 days to 180 days credit term (Payment Terms). Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The Company has no concentration of credit risk at the customer base is widely distributed both economically and geographically. An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The Company uses expected credit loss model to assess the impairment loss or gain. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix takes into account available external and internal credit risk factors such as financial condition, ageing of outstanding and the Company's historical experience of customers. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 12. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. The requirement of impairment is analysed at each reporting date.

Other Financial Instruments and Cash & Cash Equivalent

The Company maintain its cash & cash equivalent in current account to meet the day to day requirements, in fixed deposits for bank margin & to meet regulatory requirements for repayment of deposits and other term deposits. The credit risk of these instruments are limited as the counter part of these financial instruments are banks with high credit rating assigned by international credit rating agencies. Other financial instruments are loan given to employee. The Company's maximum exposure to credit risk for the component of the Balance Sheet as of 31 March 2026 & 31 March 2025 is the carrying amount as disclosed in Note 11,12,15 & 16.

Provision for Expected Credit or Loss**(i) Financial assets for which loss allowance is measured using 12 month expected credit losses.**

The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

(ii) Financial assets for which loss allowance is measured using life time expected credit losses

The Company provides loss allowance on trade receivables using life time expected credit loss and as per simplified approach.

Ageing of trade receivables

The Ageing of trade receivables is as below:

	Rs. in Lakhs				
Ageing	0-180 days	181-365 days	1-2 years	2-5 years	Total

Impairment loss recognised on above	311.02	185.31	122.06	522.91	1,141.30

(b) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

(c) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Company. All such transactions are carried out within the guidelines set by the Managing Board.

(i) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates. The company uses forward contracts to mitigate its risk from foreign currency fluctuations.

The Company's investment consists of investments in publicly traded companies held for purposes other than trading. Such investments held in connection with non-consolidated investments represent a low exposure risk for the Company and are not hedged.

As at 31 March 2026 the Company does not have material exposure to listed or unlisted equity price risk.

(ii) Interest Rate Risk

Interest rate risk arises from the sensitivity of financial assets and liabilities to changes in market rates of interest.

The Company is exposed to interest rate risk arising mainly from long term borrowings with floating interest rates. The Company is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Company manages the interest rate risks by entering into different kinds of loan arrangements with varied terms.

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments is as follows:

Note No. 53. Disclosure as per Ind AS 113 'Fair Value Measurement'**Fair Value Hierarchy**

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are:-

- (a) recognised and measured at fair value and ;
- (b) measured at amortised cost and for which fair values are disclosed in financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the accounting standard.

Fair value are categorised into different level in a fair value hierarchy which are as follows:

- Level 1** : Level 1 hierarchy includes financial instruments measured using quoted prices.
- Level 2** : The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates.
- Level 3** : If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable market transactions and dealer quotes of similar instruments.

Valuation Techniques used to determine fair values:

A) Specific valuation technique is used to determine the fair value of the financial instruments which include:

- i) For financial instruments other than (ii) and (iii)- the use of quoted market prices.
- ii) For financial liabilities (domestic currency loans) :- appropriate market borrowing rate of the entity as of each balance sheet date used.
- iii) For financial assets (employee loans) : appropriate market rate of the entity as of each balance sheet date used.

Consolidated Financial Statements

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BANSWARA SYNTEX LIMITED

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying Consolidated Ind AS financial statements of **BANSWARA SYNTEX LIMITED** ("The holding Company") and its Joint venture and Subsidiary Company (the holding company and its Subsidiary together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at **March 31, 2026**, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flows Statement for the year ended, and notes to the Consolidated Ind AS financial statements, including a summary of material accounting policies (hereinafter referred to as "the Consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the Consolidated state of affairs of the Group as at March 31, 2026, the Consolidated profit, Consolidated total comprehensive income, Consolidated changes in equity and its Consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated Ind As financial statements in accordance with Standards on Auditing (SAs) specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Ind As financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the Independence requirements that are relevant to our audit of the Consolidated Ind As financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed the matter
<p><u>Existence, Valuation of inventory and significant judgments, estimates relating to provision for obsolescence of slow and non-moving inventory.</u></p> <p>Inventories aggregate to Rs. 30,319.30 Lakhs (the group) As at March 31, 2026.</p> <p>Inventory comprises of raw material including packing material, work in progress, finished goods and stores and spares.</p> <p>We have identified the inventories as key audit matter because inventory valuation and provision for obsolescence of slow and non-moving inventory requires significant judgement and estimate, Further, inventory is material to the financial statements.</p> <p>Refer note 1(C)(6) and Note 10 to the consolidated Ind AS financial statements.</p>	<ul style="list-style-type: none"> • We read and understood the company's accounting policy for inventory valuation. Obtained understanding of the management's process of inventory valuation and inventory physical verification performed at year end. • Observed the physical stock count process on a sample basis for selected locations by attending the physical stock-taking exercise conducted by management; further, we physically verified items on test check basis. • We have also been provided the physical verification report covering major inventory which is certified by the Internal Audit Department. For the inventory lying with the third party, management has provided the confirmation obtained from the third parties. • We obtained an understanding of the inventory valuation process, and the assumptions used by the management in the process of calculation of inventory provision. We have tested management review controls and operating effectiveness of controls related to purchase, sales and Inventory verification. • The company has a policy for write-down of inventories to net realisable value on account of obsolescence and slow -moving inventory which is recognised on a case-to-case basis based on the management's assessment. Write-down of inventories to net realisable value is subjective owing to the nature of inventories and is dependent on significant judgments around probability of decrease in the realisable value.

- | | |
|--|--|
| | <ul style="list-style-type: none"> • We tested the basis of computation of net realisable value including arithmetical accuracy, validity of the data used and provision for slow or non-moving inventory and obsolescence at the reporting date is appropriate, by assessing the methodology and assumptions adopted by management supported by analysis of historical data. • We performed cut off testing for purchase and sales transactions made near the reporting date to assess whether transactions are recorded in the correct period by testing appropriate records, • Ensure that the closing Inventory valuation is in line with the Stock and Debtors statement furnished to the lenders for security purpose is reconciled with books of account on quarterly basis. |

Information Other than the Consolidated Ind AS Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the holding Company's annual report but does not include the Consolidated Ind AS financial statements and our auditor's report thereon.

The above referred information is expected to be made available to us after the date of this audit report.

Our opinion on the Consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, and report of the other auditors as furnished to us (refer paragraphs 1 and 2 of other matter para below), we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the remaining other information, which we will obtain after the date of auditors' report and if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Ind AS financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the Consolidated financial position, Consolidated financial performance including other comprehensive income, Consolidated change in equity and Consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with companies (Indian Accounting Standard) Rules, 2015, as amended from time to time.

The respective Board of Directors of the companies included in the Group and of its Joint Venture are responsible for maintenance of adequate accounting records in accordance

with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS financial statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and of its Joint Venture are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its Joint Venture are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company and its Joint venture and subsidiary which are Companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and of its joint venture to continue as a going concern.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its Joint Venture to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Ind AS financial statements, including the disclosures, and whether the Consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its Joint Venture to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Ind AS financial statement that, individually or

in aggregate, make it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

1. The consolidated audited financial results include the holding company's share of net profit of Rs. 398.87 Lakhs for year ended March 31, 2026, as considered in the consolidated audited financial statements, in respect of one Joint venture whose financial statements have not been audited by us.

These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our conclusion on the Statement, in so far as it relates to the amounts and disclosures included in respect of one Joint venture is based solely on the reports of the other auditors and the procedures performed by us as stated in para "Auditor's Responsibilities" above.

2. We did not audit the financial statements of below subsidiary company, whose financial statements reflect total assets, total revenues, Company's share of net profit and net cash flows for the year ended on 31 March 2026 as given below, considered in the consolidated financial statements.

(Amount Rs. in lakhs)

Sr. No.	Name of Subsidiary	As At 31 March 2026	For the Year Ended 31 March 2026		
		Total Assets	Total Revenues	Net Cash Flows	Share of Net Profit
1	Banswara Brands Private Limited	320.33	140.07	68.99	(246.02)

These financial statements have been audited by other auditor whose report have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amount and disclosures included in respect of aforesaid subsidiary company, and our report in terms of sub section (3) and (11) of section 143 of the act, in so far as it relates to the aforesaid subsidiary company, is based solely on the report of the other auditor.

Our opinion on the Consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the procedures performed by us as stated in para "Auditor's Responsibilities" above.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of other auditors on separate financial statements and on the other financial information of subsidiaries and joint venture, as noted in "Other Matters" paragraph above, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Ind AS financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Ind AS financial statements.
- (d) In our opinion, the aforesaid Consolidated Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act read with relevant rules issued there under.
- (e) On the basis of the reports of the statutory auditors of subsidiary and joint venture incorporated in India, none of the directors of joint ventures and subsidiary incorporated in India is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of internal financial controls with reference to consolidated financial statements and the operating effectiveness of such controls, refer to our separate report in **Annexure A** which is based on the auditors' reports of the Holding Company and its joint venture, and its Subsidiary Company incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls with reference to consolidated financial statements of those Companies.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, the managerial remuneration for the year ended March 31, 2026 has been paid/provided by the Holding company to its Directors in accordance with the provisions of section 197 read with schedule V to the Act. Further, provision of section 197(16) of the Act, as amended not applicable to subsidiary company and joint venture company included in consolidated Ind AS financial statements.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and based on the consideration of the report of the other auditors on the financial statements of the subsidiary company, joint venture and according to the explanations given to us:
 - i) The Consolidated Ind AS financial statements disclose the impact of pending litigations on the Consolidated financial position of the Group, and its Joint venture refer Note No. 47 to the Consolidated Ind AS financial statements.
 - ii) Provision has been made in the Consolidated Ind AS financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - iii) Unpaid dividend for financial year 2011-12 amounting to Rs. 4.30 lakhs were deposited by the Holding Company in Investor education protection fund However the Investor education protection fund authority erroneously returned the same amount. (Read with Note 28 to the Standalone Ind AS financial statement)
 - iv) (a) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or any of such subsidiaries to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (b) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are

material either individually or in the aggregate) have been received by the Company or any of such subsidiaries from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances; nothing has come to their notice that has caused them to believe that the representations under sub-clause (i) and (ii) contain any material misstatement.
- v. (i) The final dividend proposed in the previous year, declared and paid by the Holding Company during the year is in accordance with Section 123 of the Act, as applicable.
- (ii) As stated in Note no. 56 to the Consolidated Financial Statements, the Board of Directors of the Holding Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend

proposed is in accordance with Section 123 of the Act, as applicable.

- vi. Based on our examination, which included test checks, and that performed by the respective auditors of the subsidiary, and joint venture which are companies incorporated in India whose financial statements have been audited under the Act, the Holding Company, subsidiary and joint venture have used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we and respective auditors of the above referred subsidiaries and joint ventures did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the holding company subsidiary and joint venture as per the statutory requirements for record retention
- vii. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/"CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Holding Company and by the respective auditors of its joint venture and subsidiary included in the consolidated financial statements of the Company, to which reporting under CARO is applicable, we report:

“Annexure A” to the Independent Auditor’s Report of even date on the Consolidated Ind AS Financial Statements of BANSWARA SYNTEX LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the Consolidated Ind AS financial statements of the Holding Company as of and for the year ended March 31, 2026, we did not audit the internal financial controls over financial reporting of joint venture Company i.e. Tesca Textiles & Seat Components (India) Private Limited and subsidiary i.e. Banswara Brands Private Limited Incorporated in India as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the holding Company’s and its Joint Venture and subsidiary company which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on, “the internal control over financial reporting criteria established by the respective Companies which are incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to group’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated financial statements of the Holding Company and its joint venture and Subsidiary Company which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing

the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, and audit evidence obtained by other auditors in term of their reports is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company, its subsidiary and its joint venture, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A Company’s internal financial control with reference to Consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to Consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated financial statements, to future periods are subject to the risk that the internal financial control with reference to Consolidated financial statements, may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Holding Company and its Joint Venture and subsidiary which are companies incorporated in India, in all material respects, an adequate internal financial controls system with reference to Consolidated financial statements, and such internal financial controls with reference to Consolidated financial statements were operating effectively as at 31st March 2026, based on the criteria for internal financial controls with reference to Consolidated financial statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3) of the Act on the adequacy and operating effectiveness of the internal financial control with reference to the financial statements in so far as relates to its Joint Venture company and subsidiary which are companies incorporated in India, is based on the corresponding standalone reports of the auditors, as applicable, of such companies incorporated in India.

Our opinion is not modified in respect of the above matter.

Consolidated Financial Statement for the year ended 31 March 2026

1. Overview & Material Accounting Policies

A. Corporate Information

The Financial Statement comprises Financial Statement of “Banswara Syntex Limited” (“the Holding Company” or “Parent Company”) and its subsidiary (collectively, the Group) and its interest in Joint Venture for the year ended 31 March 2025. The shares of the Parent is publicly traded on the National Stock Exchange of India Limited and Bombay Stock Exchange Limited. The address of the Holding Company registered office is Industrial Area, Dahod Road, Banswara Rajasthan.

The Group is engaged in to manufacturing man-made synthetic blended Yarn, wool and wool mixed yarn, all type of Fabrics, Jacquard Furnishing Fabrics, besides production of Readymade Garments and Made-up's along with trading, buying, selling in India and outside india of all kinds of apparels under Direct-to-consumer brand and retail business verticals and E-commerce activity related to business activity of the group

These Consolidated Financial Statements of the Group have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

These Consolidated Financial Statements were authorized for issue by Board of Directors on 19 May 2026.

B. Basis of Preparation of Consolidated Financial Statement

1. Compliance with Ind AS

These Consolidated Financial Statements are prepared on going concern basis following accrual basis of accounting and comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto, the Companies Act, 2013.

2. Basis of measurement/Use of Estimates

(i) The Consolidated Financial Statements are prepared on going concern and accrual basis under the historical cost convention except certain financial assets, financial liabilities and defined benefits plans- plan assets that are measured at fair value. The methods used to measure fair values are discussed in notes no. 52 to Consolidated Financial Statements.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

(ii) The preparation of Consolidated Financial Statements requires judgments, estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the Consolidated Financial Statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized. Major Estimates are discussed in Part D.

3. Recent Pronouncement

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time

In May 2025, MCA notified amendments to Ind AS 21 - The Effects of Changes in Foreign Exchange Rates, applicable w.e.f. April 1, 2025. The Group has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

In August 2025, MCA notified the following amendments to:

- a. Ind AS 1, Presentation of Financial Statements, applicable w.e.f. April 1, 2025 – The amendment relates to classification of liabilities as current or noncurrent and non-current liabilities with covenants. In the context of classifying a liability as current, it removes the requirement of existence of a right to defer settlement for at least 12 months after the reporting date and instead requires that the said right should exist on the reporting date and have substance. The amendment also introduces guidance on classification of liabilities with covenants. The Group has no impact of these amendments in its classification criteria of current and non-current liabilities.
- b. Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments: Disclosures, applicable w.e.f. April 1, 2025 – The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Group has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements

4. Functional and presentation currency

These Consolidated Financial Statements are presented in Indian Rupees (INR), which is the Group's functional currency. All financial information presented in INR has been rounded to the nearest Lakhs (up to two decimals), except as stated otherwise.

C. Material accounting policies

A summary of the material accounting policies applied in the preparation of the Consolidated Financial Statements are as given below. These accounting policies have been applied consistently to all periods presented in the Consolidated Financial Statements.

Basis and Principle of Consolidation

The financial statements of Joint venture and Subsidiary are drawn up to the same reporting date as of the Holding Company for the purpose of consolidation.

Joint arrangements

Under Ind AS 111 'Joint Arrangements', investment in joint arrangements are classified as either joint operations or joint venture. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The group has only joint venture.

Joint Venture

The list of Joint Venture included in the Consolidated Financial Statements are as under:

S No	Name of the Subsidiary	Country of Incorporation/ Principle Place of Business	Proportion of ownership interest and voting power
1	Tesca Textiles and Seat Components Private Limited	India	40.64%

Interests in joint venture are accounted for using the **equity method**, after initially being recognized at cost in the consolidated balance sheet.

Equity Method

Under the equity method of accounting, the investment in a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the joint venture since the acquisition date. Goodwill relating to the joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

The statement of profit and loss reflects the Group's share of the results of operations of the joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the joint venture are eliminated to the extent of the interest in the joint venture.

Upon loss of internal control over joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the joint venture upon loss of or joint control and the fair value of the retained investment and proceeds from disposal is recognised in statement of profit or loss.

The list of subsidiaries included in the Consolidated Financial Statements are as under:

S No	Name of the Subsidiary	Country of Incorporation/ Principle Place of Business	Proportion of ownership interest and voting power
1	Banswara Brands Private Limited	India	100%

The subsidiary Company was incorporated on 23rd August, 2022 and became the wholly owned subsidiary of the parent Company from the date of incorporation.

- The consolidated financial statements incorporate the financial statements of the Parent Company and its wholly owned subsidiary. For this purpose, an entity which is, directly or indirectly, controlled by the Parent Company is treated as a subsidiary. The Parent Company together with its subsidiary constitutes the Group. Control exists when the Parent Company, directly or indirectly, has power over the investee, is exposed to variable returns from its involvement with the investee and has the ability to use its power to affect its returns
- The Consolidation of a subsidiary begins when the Parent Company, directly or indirectly, obtains control over the subsidiary and ceases when the Parent Company, directly or indirectly, loses control of the subsidiary. Income and expenses of a subsidiary acquired or disposed off during the year are included in the consolidated Statement of Profit and Loss from the date the Parent Company, directly or indirectly, gains control until the date when the Parent

Company, directly or indirectly, ceases to control the subsidiary

- c. The consolidated financial statements (IND AS 110 “Consolidated Financial Statements”) of the Group combines financial statements of the Parent Company and its subsidiary line-by-line by adding together the like items of assets, liabilities, income and expenses. All intra-group assets, liabilities, income, expenses and unrealised profits/losses on intra-group transactions are eliminated on consolidation. The accounting policies of subsidiary have been harmonised to ensure the consistency with the policies adopted by the Parent Company. The consolidated financial statements have been presented to the extent possible, in the same manner as Parent Company’s standalone financial statements. Profit or loss and each component of other comprehensive income are attributed to the owners of the Parent Company.
- d. The gains/losses in respect of part divestment/ dilution of stake in subsidiary companies not resulting in ceding of control are recognized directly in other equity attributable to the owners of the Parent Company.

1. Property, plant & equipment

1.1. Initial recognition and measurement

Property, plant and equipments (“PPE”) are measured at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset, inclusive of non-refundable taxes & duties, to the location and condition necessary for it to be capable of operating in the manner intended by management.

Freehold land is carried at cost.

When parts of an item of property, plant and equipments have different useful lives, they are recognized separately.

Spare parts are capitalized when they meet the definition of PPE, i.e. when the Group intends to use these for a period exceeding 12 months.

On transition to IND AS, the Holding Company has elected to continue with the carrying value of all of its PPE recognized as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the PPE.

1.2. Depreciation

Depreciation is recognized in statement of profit and loss on Straight Line Method (SLM) over the estimated useful life of property, plant and equipment as mentioned in Schedule II of the Companies Act, 2013, except in case of Plant & Machinery where the useful life has been taken as ascertained by technical experts of the Group. Considering materiality of assets costing less than Rs. 5,000 are fully depreciated in the year of purchase/acquisition. The Group provide pro-rata depreciation from/to the date on which asset is ready to use/ disposed off as appropriate.

Estimated useful life of the assets is given below :

Buildings	3 to 60 Years
Plant & Equipments	3 to 30 Years
Electric & Water Supply Installation	10 Years
Furniture & Fixtures	10 Years
Office Equipments	3 to 6 Years
Vehicles	8 to 10 Years
Capital Spares	2 to 15 Years

Leasehold lands are amortized over the lease term unless it is reasonably certain that the Group will obtain ownership by the end of the lease term.

Depreciation on additions to/deductions from property, plant and equipment during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

In circumstance, where a PPE is abandoned, the cumulative capitalized costs relating to the property are written off in the same period.

2. Capital work-in-progress

- a. The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.
- b. Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.
- c. Capital Stores are valued at weighted average cost. Specific provision is made for likely diminution in value, where required.

3. Intangible assets and intangible assets under development

3.1. Initial recognition and measurement :

Intangible assets are measured on initial recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

Expenditure incurred which are eligible for capitalizations under intangible assets are carried as intangible assets under development till they are ready for their intended use.

3.2. Amortization

Intangible assets having definite life are amortized on straight line method in their useful lives. For amortization, Useful life of computer software/website is estimated at six years and useful life of Brands/trade marks is estimated at five years.

4. Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale. Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete.

All other borrowing costs are charged to revenue as and when incurred.

5. Investment in Equity Shares of Joint Venture

Investment in equity shares of joint venture are accounted for using equity method in the Consolidated Financial Statement and the same are tested for impairment in case of any indication of impairment.

6. Inventories

Inventories are valued at the lower of cost or net realizable value.

Cost of raw material, stores spares, packing material, traded goods etc. includes cost of purchase and other cost incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Cost is determined on weighted average cost basis. Further, cost of traded goods is determined on FIFO method.

Finished goods and work- in –progress : cost includes cost of direct material and labour and a proportion of manufacturing based on the normal operating capacity, but excluding borrowing cost. Cost is determined on weighted average cost basis

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Spare parts those does not meet definition of Property, Plant and Equipment are carried as inventory.

The diminution in the value of obsolete, unserviceable, slow moving/non-moving inventory is ascertained on review based on technical assessment, provided for, and shown as net of provision.

Transit stocks are valued at cost.

7. Cash and Cash Equivalent

Cash and cash equivalent in the balance sheet comprise cash at banks and cash on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

8. Government Grants

Government Grants related to income are recognized in the statement of profit and loss in the same period as the related cost which they are intended to compensate are accounted for. Government Grant/subsidy related to subvention of a particular expense is deducted from that expense in the year of recognition of that Government grant/subsidy.

Government grants relating to the purchase of property, plant and equipment are included in liabilities as deferred income and are credited to Statement of Profit and Loss on straight –line basis over the expected lives of related assets and presented within other income.

9. Provisions and Contingent liabilities

Provisions:-

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

Contingent liabilities:-

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Group. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

10. Foreign currency transactions and translation

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in Statement of profit or loss in the year in which it arises.

Non-monetary items are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

11. Revenue

Revenue is to be recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Group expects to receive in exchange for those products or services.

a) Income from Sale of Goods

Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts, rebates, refunds, price concessions, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government.

The Group recognizes sales return only when the goods are actually returned by the customer. Therefore, a refund liability which is included in current financial liabilities or is reduced from current financial assets, is recognized for the goods actually returned.

Revenue from sale of products are recognized at a point in time on transfer of promised product to customer upon transfer of control in an amount that reflects the consideration that the Group expects to receive in exchange for those product.

b) Income from Job Work

Income from job work charges is recognised at a point in time when the control is transferred usually when the material is fully processed and dispatched to the customer.

c) Other Export Benefit/Incentives

Export benefits arising from Duty Drawback scheme, RoDTEP and other eligible export incentives are recognised on post export basis at the rate at which the entitlements accrue and is included in the 'Other Operating Income'.

Interest Income

For all financial instruments classified and measured at amortized cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the Statement of Profit or loss.

Dividend

Dividend Income is recognized when the Group's right to receive is established.

Employee Benefits

12.1 Short Term Employee Benefit

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under performance related pay if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

1.2 Post-Employment benefits

Employee benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit):-

12.2.1 Defined contribution plans

Defined contribution plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. Provident Fund and Employee State Insurance are Defined Contribution Plans in which the Group pays a fixed contribution based on the applicable law.

1.1.2 Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Group pays Gratuity as per provisions of the Gratuity Act, 1972. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Group's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the Group, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses are recognized in Other Comprehensive Income ("OCI") in the period in which they arise.

12.3 Other long-term employee benefits

Benefits under the Group's leave encashment, long-service award and economic rehabilitation scheme constitute other long term employee benefits. The Holding Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Group's obligations. The calculation is performed using the projected unit credit method by a qualified actuary. Actuarial gains or losses are recognized in statement of profit or loss in the period in which they arise. Leave encashment relating to subsidiary company, not being material, is accounted on the basis of "pay as you go method".

12 Taxes

Provision for current tax is made as per the provision of the Income tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Management periodically evaluates positions taken in the tax return with respect to applicable tax regulations which are subject to interpretation and establishes provisions where appropriate.

Deferred tax is provided using the Balance Sheet method on temporary difference between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets and liabilities are measured based on tax rates (and tax law) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity).

13 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration.

As a lessee (Assets taken on lease)

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognize lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Lease Liabilities

At the commencement date of the lease, the Group recognize lease liabilities measured at the present value of lease payments to be made over the contractual non cancellable lease term, for which enforceable rights is available. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date, if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion on interest and reduced for the lease payment made.

Right-of-use

The Group recognize right-of-use assets at the commencement date of the lease (i.e., the date the underlying assets is available for use). Right-of-use are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. Perpetual Right of Use assets related to land are not depreciated but tested for impairment loss, if any.

Short-term lease and lease of low-value-assets

The Group applies the short –term lease recognition exemption to its short-term leases of Property, Plant and Equipment (i.e those leases that have lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemptions to lease that are considered of low value and is not intended for sublease. Lease payments on short-term leases and leases of low-value assets are recognized as expenses on a straight-line basis over the lease term or another systematic basis if that basis is more representative of the pattern of the lessee's benefits.

As a lessor

Rental income from operating lease is recognized on straight-line basis over the term of the relevant lease except where another systematic basis is more representative of the time pattern of the benefits derived from the assets given on lease.

14 Impairment of Non-financial Assets

The carrying amounts of the Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU").

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in statement of profit or loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of goodwill of that CGU, if any and then the assets of the CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

15 Dividends to Share Holders

Interim dividends and Final dividends payable to a Group's shareholders are recognized in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

16 Statement of Cash Flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS-7 'Statement of cash flows.

17 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All Financial Assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction cost that are attributable to the acquisition of the Financial Asset. However, trade receivables that do not contain a significant financing component are measured at transaction price. Transaction costs directly attributable to the acquisition of financial assets measured at fair value through profit or loss are recognized immediately in the Statement of Profit and Loss.

Subsequent measurement

For the purpose of subsequent measurement, Financial Assets are classified in four categories:

- Financial Assets at amortised cost
- Debt Instruments at fair value through Other Comprehensive Income (FVTOCI)
- Equity Instruments at fair value through Other Comprehensive Income (FVTOCI)
- Financial Assets and derivatives at fair value through profit or loss (FVTPL)

Financial Assets at amortized cost

A Financial Asset is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial Assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are an integral part of the EIR.

The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. Apart from the same, any income or expense arising from remeasurement of financial assets measured at amortised cost, in accordance with Ind AS 109, is recognized in the Statement of Profit and Loss. This category generally applies to trade and other receivables.

Debt Instruments at fair value through Other Comprehensive Income (FVTOCI)

A 'Debt Instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent solely payments of principal and interest (SPPI).

Debt Instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair Value movements are recognized in the Other Comprehensive Income (OCI). However, the Group recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the Equity to the Statement of Profit and Loss.

Interest earned whilst holding FVTOCI Debt Instrument is reported as interest income using the EIR method.

Equity Instruments at fair value through Other Comprehensive Income (FVTOCI)

All equity investments in entities are measured (except equity investment in joint venture) at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at FVTOCI or FVTPL. The Group makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instruments, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However the Group may transfer cumulative gain or loss within the equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Financial Assets and derivatives at fair value through profit or loss (FVTPL)

FVTPL is a residual category for financial assets. Any financial assets, which does not meet the criteria for categorization as at amortised cost or as FVTOCI, is classified as at FVTPL.

This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Debt Instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss. Interest income on such instruments has been presented under interest income.

Impairment of financial assets

The Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the

- a) Financial Assets that are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance

Simplified Approach

The Group follows 'simplified approach' for recognition of impairment loss allowance on Trade Receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

As a practical expedient, the Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. On that basis, the Group estimates provision on trade receivables at the reporting date.

General Approach

For recognition of impairment loss on other financial assets, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-months ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-months ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-months ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

Financial liabilities

Initial recognition and measurement

All Financial Liabilities are recognized initially at fair value and, in the case of liabilities subsequently measured at amortised cost, they are measured net of directly attributable transaction cost. In case of Financial Liabilities measured at fair value through profit or loss, transaction costs directly attributable to the acquisition of financial liabilities are recognized immediately in the Statement of Profit and Loss.

The Group's Financial Liabilities include trade and other payables, loans and borrowings including derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

A. Financial Liabilities at fair value through profit or loss

Financial Liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through the Statement of Profit and Loss. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

B. Financial Liabilities at amortised cost

Financial Liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Gains and losses are recognized in the Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Derivative financial instruments

The Group uses forwards to mitigate the risk of changes in exchange rates. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss.

19. Current and non-current classification

All assets and Liabilities have been classified as current or non-current. the Group has determined its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

Deferred tax assets/liabilities are classified as non-current.

D. Major Estimates and Judgments made in preparing Consolidated Financial Statements

The preparation of the Group's Consolidated Financial Statements requires management to make judgements and estimates that affect the reported amounts of revenues, expenses, assets and liabilities, and the acGrouping disclosures, and the disclosure of contingent liabilities. These include recognition and measurement of financial instruments, estimates of useful lives and residual value of Property, Plant and Equipment and Intangible Assets, valuation of inventories, measurement of recoverable amounts of cash-generating units, measurement of employee benefits, actuarial assumptions, provisions etc.

Uncertainty about these judgments and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The Group continually evaluates these estimates and assumptions based on the most recently available information. Revisions to accounting estimates are recognized prospectively in the Statement of Profit and Loss in the period in which the estimates are revised and in any future periods affected.

A. JUDGEMENTS

In the process of applying the Group's accounting policies, management has made the following judgements, which have the significant effect on the amounts recognised in the Consolidated Financial Statements:

Materiality

Ind AS requires assessment of materiality by the Group for accounting and disclosure of various transactions in the Consolidated Financial Statements. Accordingly, the Group assesses materiality limits for various items for accounting and disclosures and follows on a consistent basis. Overall materiality is also assessed based on various financial parameters such as Gross Block of assets, Net Block of Assets, Total Assets, Revenue and Profit Before Tax. The materiality limits are reviewed and approved by the Board.

Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter. In the similar line, management also on the basis of best judgment and estimate determines the net realizable value of the Inventories to make necessary provision.

B. MAJOR ESTIMATES

The key assumptions concerning the future and other key sources of estimation at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

1. Useful life of property, plant and equipment and intangible assets

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Useful life of the assets other than Plant and machinery are in accordance with Schedule II of the Companies Act, 2013.

The Group reviews at the end of each reporting date the useful life of property, plant and equipment, and are adjusted prospectively, if appropriate.

Intangible assets is being amortized on straight line basis over the period of six years.

2. Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Group considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

3. Income Taxes

The Group uses estimates and judgements based on the relevant facts, circumstances, present and past experience, rulings, and new pronouncements while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised.

4. Estimation of net realisable value of inventories

Inventories are stated at the lower of cost and net realisable value. In estimating the net realisable value of inventories the Company makes an estimate of future selling prices and costs necessary to make the sale.

5. Impairment of Financial Assets

The impairment provisions for trade receivables are made considering simplified approach based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation based on the Group's past history and other factors at the end of each reporting period. In case of other financial assets, the Group applies general approach for recognition of impairment losses wherein the Group uses judgement in considering the probability of default upon initial recognition and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

In accordance with the Employees Provident Fund & Miscellaneous Provisions Act, 1952, employees are entitled to receive benefits under the Provident Fund. Both the employees and the employer make monthly contributions to the plan at a predetermined rate of an employee's basic salary. These contributions are made to the regional fund administered and managed by the Employees Provident Fund Organisation (EPFO). The Group has no further obligations under the fund managed by the EPFO beyond its monthly contributions which are charged to the statement of profit and loss in the period they are incurred.

B) Defined benefits plan

The Group has following post employment benefits which are in the nature of defined benefit plans:

Gratuity

The Group provides for gratuity payable to employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary divided by 26 days multiplied for the number of years of service. The gratuity plan is a funded plan administered by a Trust and the Company makes contributions to Life Insurance Corporation of India (LIC).

Risk Exposure

Through its defined benefit plans, the Group is exposed to a number of risks, the most significant of which are detailed below:

a) Asset volatility

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. Most of the plan asset investments are in fixed income securities with high grades and in government securities. These are subject to interest rate risk and the fund manages interest rate risk with derivatives to minimize risk to an acceptable level. A portion of the funds are invested in equity securities and in alternative investments which have low correlation with equity securities.

The equity securities are expected to earn a return in excess of the discount rate and contribute to the plan deficit. The Group has a risk management strategy where the aggregate amount of risk exposure on a portfolio level is maintained at a fixed range. Any deviations from the range are corrected by rebalancing the portfolio. The Group intends to maintain the above investment mix in the continuing years.

b) Changes in discount rate

A decrease in discount rate will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

c) Inflation risks

In the pension plans, the pensions in payment are not linked to inflation, so this is a less material risk.

d) Life expectancy

The pension plan obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plans' liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

The Group ensures that the investment positions are managed within an asset-liability matching (ALM) framework that has been developed to achieve long-term investments that are in line with the obligations under the employee benefit plans. Within this framework, the Group's ALM objective is to match assets to the pension obligations by investing in long-term fixed interest securities with maturities that match the benefit payments as they fall due and in the appropriate currency.

The Group actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. The Group has not changed the processes used to manage its risks from previous periods. The Group uses derivatives to manage some of its risk. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

C) Other Long Term Employee Benefit
Leave Policy

Other long term employee benefit includes earned leave to the employees of the Group which accrue annually for 24 days. Earned leave can be accumulated up to 90 days while in service. These accumulated earned leave are encashable at the time of retirement or leaving the services of the Group. The scheme is unfunded and liability for the same is recognised on the basis of actuarial valuation. A provision of Rs. 180.24 Lakhs (Previous Year: Rs. 98.42 Lakhs) have been made on the basis of actuarial valuation and debited to the Statement of Profit and Loss.

Amount of Rs. 278.74 Lakhs (Previous Year; Rs. 188.64 Lakhs) is recognised as expenses and included in Note No 36 "Employee benefit expenses"

B) Financial risk management

Financial Risk Management

The Group's principal financial liabilities comprise Borrowings, trade payables, Lease Liabilities and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade & other receivables, cash & cash Equivalent, Investment, deposits & other assets.

Group is exposed to following risk from the use of its financial instrument:

- (a) Credit Risk
- (b) Liquidity Risk
- (c) Market Risk
 - (i) Foreign Currency Risk
 - (ii) Interest Rate Risk

The Group's Financial Risk Management is an integral part of how to plan and execute its business strategies. The Group's financial risk management is set by the Managing Board.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. Credit risk arises principally from trade receivables, loans & advances, cash & cash equivalents and deposits with banks and financial institutions.

Trade Receivable

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 30 days to 180 days credit term (Payment Terms). Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit.

The Group has no concentration of credit risk at the customer base is widely distributed both economically and geographically.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 12. The Group does not hold collateral as security. The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. The requirement of impairment is analysed as each reporting date.

Other Financial Instruments and Cash & Cash Equivalent

The Group maintains its cash & cash equivalent in current account to meet the day to day requirements, in fixed deposits for bank margin & to meet regulatory requirements for repayment of deposits. Other financial instruments are loan given to employee, Investment and Deposit. The Company's maximum exposure to credit risk for the component of the Balance Sheet as of 31 March 2026 & 31 March 2025 is the carrying amount as disclosed in Note 11, 12, 15 & 16.

Provision for Expected Credit or Loss

(a) Financial assets for which loss allowance is measured using 12 month expected credit losses.

The Group has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

(b) Financial assets for which loss allowance is measured using life time expected credit losses

The Group provides loss allowance on trade receivables using life time expected credit loss and as per simplified approach.

Ageing of trade receivables

The Ageing of trade receivables is as below:

Rs. in Lakhs

Ageing	0-180 days past due	181-365 days past due	1-2 years past due	2-5 years past due	Total
Gross Carrying amount as on 31.03.2026	24,597.72	272.34	52.94	485.01	25,408.00

Impairment loss recognised on above	311.02	185.31	122.06	522.91	1,141.30

(i) Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

(ii) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Group's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Group. All such transactions are carried out within the guidelines set by the Managing Board.

(iii) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates. The Group uses forward contracts to mitigate its risk from foreign currency fluctuations.

The Group's investment consists of investments in publicly traded companies held for purposes other than trading. Such investments held in connection with non-consolidated investments represent a low exposure risk for the Group and are not hedged.

As at 31 March 2026 the Group does not have material exposure to listed or unlisted equity price risk.

(iv) Interest Rate Risk

Interest rate risk arises from the sensitivity of financial assets and liabilities to changes in market rates of interest.

The Group is exposed to interest rate risk arising mainly from long term borrowings with floating interest rates. The Group is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Group manages the interest rate risks by entering into different kinds of loan arrangements with varied terms.

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments is as follows:

Fair Value Hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are:-

- recognised and measured at fair value and ;
- measured at amortised cost and for which fair values are disclosed in financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into three levels prescribed under the accounting standard.

Fair value are categorised into different level in a fair value hierarchy which are as follows:

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2 : The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates.

Level 3 : If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable market transactions and dealer quotes of similar instruments.

Valuation Techniques used to determine fair values:

A) Specific valuation technique is used to determine the fair value of the financial instruments which include:

- For financial instruments other than (ii) and (iii)- the use of quoted market prices.
- For financial liabilities (domestic currency loans) :- appropriate market borrowing rate of the entity as of each balance sheet date used.
- For financial assets (employee loans) : appropriate market rate of the entity as of each balance sheet date used.
