As required under the said Rules, the Company has published a Notice in the newspapers inviting the Members attention to the aforesaid Rules. The Company has also sent individual communication to the concerned Members whose shares are liable to be transferred to IEPF Suspense Account, pursuant to the said Rules. The Company has also uploaded full details of such shares due for transfer as well as unclaimed dividends under "Investor Relations" section on the website of the Company at www.banswarasyntex.com

11. **Nomination Facility**

As per the provisions of Section 72 of the Act, facility for making nomination is available for the Members in respect of the shares held by them. Members holding shares in single name and who have not yet registered their nomination are requested to register the same by submitting Form No. SH-13. If a Member desires to cancel the earlier nomination and record fresh nomination, he may submit the same in Form No. SH-14. Members holding shares in physical form are requested to submit the forms to the Company's RTA. Members holding shares in electronic form may obtain Nomination forms from their respective Depository Participant.

12. **Updation of Members' Details**

Members are requested to notify any change in their address or bank mandate to: (a) their respective

Depository Participants in case of shares held in electronic form; or (b) the Company's RTA, in case of shares held in physical form.

13. As per Regulation 40 of the SEBI Listing Regulations, securities of listed companies can be transferred only in dematerialized form with effect from April 1, 2019, except in case of request received for transmission or transposition and re-lodged transfers of securities. In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, Members holding shares in physical form are requested to consider converting their holding to demat form. Members can contact the Company or RTA for assistance in this regards.

14. The Members are requested to submit their queries/requests for clarification, if any, on the Annual Report via e-mail to Shri H P Kharwal, Company Secretary at secretarial@banswarasyntex.com latest by Thursday, 27th July, 2023, which will enable the Company to furnish replies at the AGM.

15. **Voting through Electronic means**

In compliance with provisions of Section 108 of the Act and Rule 20 of the Companies (Management and Administration) Rules, 2014 and Regulation 44 of the SEBI Listing Regulations as amended from time to time, the Company is pleased to provide the Members facility of "remote e-voting" (e-voting from place other than venue of the AGM) to exercise their right to vote at the AGM.

For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-Voting's agency. The facility of casting votes by a member using remote e-voting for AGM will be provided by CDSL.

The business may be transacted through e-voting Services provided by CDSL. The facility for voting, either through electronic voting system or through ballot/polling paper shall also be made available at the venue of the AGM. The Members attending the Meeting, who have not already cast their vote through remote e-voting shall be able to exercise their voting rights at the Meeting. The Members who have already cast their vote through remote e-voting may attend the Meeting but shall not be entitled to cast their vote again at the AGM.

THE INTRUCTIONS OF MEMBERS FOR REMOTE E-VOTING AREAS UNDER

- i) The voting period begins from **9:00 A.M. on Tuesday, the 1st August, 2023 and ends at 5:00 P.M. on Friday, the 4th August, 2023.** During this period, Members of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of Saturday, the **29th July, 2023**, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter. Once the vote on a resolution is cast by the shareholder, the Shareholder shall not be allowed to change it subsequently.
- ii) Members who have already voted prior to the meeting date would not be entitled to vote at the Meeting venue.
- iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 9th December, 2020, under Regulation 44 of the Regulations, listed entities are required to provide remote e-voting facility to its Members, in respect of all Shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.
- iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 9th December, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INTRODUCTION

India's textile industry plays a vital role in the country's economy and export sector. It encompasses a wide range of activities, from traditional hand weaving to modern textile mills, and is anticipated to experience significant growth in the foreseeable future. India has earned a reputation as a prominent manufacturing hub for textiles and apparel due to its rich textile heritage, skilled craftsmanship, and cost-effective labour. As the sixth-largest exporter of textiles and apparels worldwide, India's technical textiles segment alone is valued at approximately USD 16 Billion, constituting around 6% of the global market.

Notably, India is the second-largest producer of man-made fibre (MMF) globally, trailing only behind China. Key export destinations for Indian textiles and apparel include the United States, European Union (EU-27), and the United Kingdom, accounting for roughly 50% of India's exports in this sector. In terms of global trade in textiles and apparel, India holds a 4.6% share. The industry also offers significant employment opportunities, directly employing over 45 million people and providing jobs for approximately 100 million individuals in related industries. Projections indicate that the Indian textile industry's market size is estimated to reach USD 190 Billion by 2025-26, a substantial increase from USD 99 Billion in 2021-22.

DRIVING FORCES

The growth of the Indian textile industry is being propelled by multiple factors. These include a notable increase in the demand for natural fibres, the growing adoption of digital textile printing, the availability of raw materials and a skilled workforce, favourable demographics, and extensive government support. Demographic factors, such as a rising youth population, increasing disposable incomes, rapid urbanization, and improving standards of living, are contributing to the industry's success. Additionally, the industry is benefiting from the trend of omnichannel retailing in the apparel and textile sector, with online sales anticipated to play a significant role in the industry's future growth.

The Ministry of Textiles is actively promoting private sector engagement in the industry's advancement through different Public-Private Partnership initiatives. Moreover, there is a notable transition occurring within the industry towards sustainable resources, driven by increasing consumer preferences for environmentally friendly options. Key market players are also embracing emerging technologies and cutting-edge equipment to enhance efficiency and productivity in the coming years.

GOVERNMENT INITIATIVES

The Indian Government is proactively engaged in promoting the expansion and progress of the textile sector in the country through the implementation of various impactful schemes. These initiatives include the Production Linked Incentive (PLI) Scheme, the Remission of Duties and Taxes on Exported Products (RoDTEP) Scheme, Make in India, Mega Textile Parks Development, and the National Technical Textiles Mission, among others. These schemes are designed to facilitate and incentivize investments in the textile industry. Moreover, the Government's ongoing efforts to enhance the ease of doing business by reducing compliance burdens and costs will attract foreign investments, thereby further benefiting the textile sector.

- The **Scheme for Capacity Building in Textile Sector (SAMARTH)** was created to meet the proficient workforce needs of the textile industry. The scheme was developed in line with the Skill India initiative and aligned with the Ministry of Skill Development and Entrepreneurship's skilling programme framework. The implementation of SAMARTH has been approved until March 2024.
- The **Amended Technology Upgradation Fund Scheme (ATUFS)** was launched in January 2016 to promote ease of doing business in India, generate employment, and encourage exports through the Make in India initiative. The scheme provides a credit-linked Capital Investment Subsidy (CIS) to units in the textile sector (excluding spinning) for the purchase of benchmarked machinery. The goal is to achieve 'Zero effect and Zero defect' in manufacturing.
- The **Pradhan Mantri Mega Integrated Textile Region and Apparel (PM MITRA)** Scheme was approved by the Indian Government to establish seven textile parks in greenfield and brownfield sites with an outlay of ₹ 44.45 Billion over a period of seven years, up to 2027-28. The goal of PM MITRA is to enhance the competitiveness of the Indian textile

industry, attract significant investment, and boost employment generation. The most recent edition of the scheme aims to build a total of 65 textile parks in India.

- The **Production Linked Incentive (PLI) Scheme** has been introduced to promote the production of MMF apparel, MMF fabrics, and technical textile products in India. The goal of the scheme is to create 60-70 global players, attract fresh investment of approximately ₹ 190 Billion, and generate almost 750,000 new employment opportunities in the country.
- The **Rebate of State and Central Taxes and Levies (RoSCTL)** has been approved by the Indian Government for the extension of its implementation until March 31, 2024. The rates applicable to apparel/garments, and made-up exports will remain unchanged, as issued by the Ministry of Textiles. This decision aims to provide a tax rebate on outbound shipments to garment exporters, thereby boosting the competitiveness of the labour-intensive textile industry.
- **Free Trade Agreement:** The IndAUS ECTA is expected to boost India's textile and apparel exports significantly, with projections indicating an increase to USD 1100 Million within the next three years. This agreement is poised to positively impact the Indian textile industry by facilitating increased trade between India and Australia.

Industry Outlook

- The outlook for the Indian textile industry seems promising, with strong growth prospects in both domestic consumption and export demand. The industry is anticipated to experience robust growth, driven by robust domestic consumption, growing export demand, and the rapid digitisation of consumers and brands post-Covid-19 pandemic. Over the past decade, the retail sector has undergone rapid progress due to increasing consumerism and disposable income. This growth has been further fuelled by the entry of various international players into the Indian market.
- The China+1 strategy presents a significant opportunity for the Indian textile industry to regain its position as a top exporting economy. With the domestic economy improving and exports increasing, the industry is expected to experience substantial growth in domestic production to meet the rising demand. As a result, capital expenditures and investments in the sector are projected to increase, leading to an improvement in productivity and industry competitiveness. India's favourable demographics and industry dynamics further enable the country to establish itself as a global textile hub.

RISKS & CONCERNS

Management Discussion and Analysis mainly comprise the statements which may, inter alia, involve predictions based on perceptions and may, therefore, be prone to risks and uncertainties. It is the sum of the Company's expectations, beliefs, estimates and projections which may be forward looking or depressing within the meaning of applicable laws and regulations. The actual results could differ materially from those expressed herein specifically or impliedly. The shareholders are cautioned to keep this in view in conjunction with the Company's financial statements.

CORE BUSINESS AND PRODUCTS

The core business of the Company is manufacturing and marketing of spun synthetic blended yarn, wool and wool mix yarn, spun synthetic and worsted fabrics and cotton & linen fabrics besides readymade garments. The Company also produces shirting and technical fabrics. Tesca Textiles and Seats Components (India) Private Limited, the Joint venture Company, is producing automotive fabrics.

OUTLOOK

Your Company's future growth is built on two parallel growth drivers viz., domestic consumption of fabrics & garments and large global opportunities in textiles and clothing. Given the opportunity that textile as a sector is presenting, we are looking to steer the company in the direction of growth and achieving larger scale of business. Keeping this in mind we are strengthening our leadership team within the organisation. In line with our future growth plans, the promoters and the board have collectively started tracking the business from 3 divisions perspective – namely, Yarn, Fabric and Garments. This strategic move aims to improve realizations and enhance the internal performance of each segment. We have appointed three separate business unit heads for our yarn, fabrics, and garment divisions.

PROFESSIONAL MANAGEMENT TEAM**CFO:**

Ms Kavita Gandhi has been appointed as our CFO. She is a Chartered Accountant and has over 30 years of experience in the field of Accounts, Taxation, and Finance.

YARN DIVISION:

Mr. Vireshwar Joshi will head the yarn division. He is B. Text. (Engg.) with MBA (Finance and Marketing), DCA (Computer Application) and he has 30 years of experience in the textile industry across various companies in India, Nigeria and Uganda. He has demonstrated ability to manage large scale manufacturing operations with a focus on improving efficiency and productivity.

FABRIC DIVISION:

Mr Shailendra Pandey will head the fabrics division. He is M.Sc. in Textile Chemistry and has done MBA in Productions and Operations. He holds over 27 years of experience in the textile manufacturing industry including P/V Suiting, automotive textiles, worsted fabric, and home furnishing.

GARMENT DIVISION:

The garments division will be headed by Mr Rahul Bhaduria. He is a graduate in Garment Manufacturing Technology from NIFT and has over 24 years of experience in the industry.

CHIEF TECHNOLOGY OFFICER

To further strengthen our core leadership team, we have on board Mr Devendra Pratap Misra, Chief Technology Officer. He has over 29 years of experience in the field of IT with specialization in SAP, ISO/QMS, EMS, TQM and 5S. He holds a MSc in Math; MCA and he is an LLB.

CHIEF INTERNAL AUDITOR

Internal Audit function is led by Mr. Yugal Kishore Agarwal Chief Internal Auditor. He is vastly experienced in the entire gamut of Internal Audit, Investigations and Controls.

HUMAN RESOURCE

Mr Swapnil Shrivastava is our DGM for Corporate Human Resources. He has over 15 years of experience across all domains of HR such as recruitments, HR/IR systems and audit, HRIS implementations, HR strategy and Policy designing.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE AND INTERNAL CONTROL SYSTEMS & ADEQUACY

The operating performance of the Company has been detailed in the Directors' Report under the heads 'Financial Statements and Operations and State of Affairs'.

During the year that went by, in the wake of the pandemic, the West and EU have adopted a China+1 strategy, leading to a decline in demand for textiles produced in China. Consequently, India has emerged as one of the favourable destinations for textile manufacturing outside of China. India's share in the textile market is projected to increase in the coming years, with textile exports from India expected to reach approximately ~20 billion. Recognizing this trend, the Indian Government has introduced initiatives such as the PLI scheme for textiles and the PM MITRA initiative. As part of these efforts, the establishment of 7 mega textile parks in India, with a combined investment of ₹ 70,000 crores, will further incentivize manufacturing and boost exports. We have observed a rise in demand for our textiles from global customers because of these developments. Hence, the future of the textile industry in India appears promising.

The profit before interest, depreciation, and tax (PBITD) during 2022-23 has been ₹ 213 crore as against ₹ 139 crore during 2021-22. The profit before depreciation and tax (PBDT) has been ₹ 181 crore as against ₹ 114 crore during 2021-22. The Net Profit earned during the year is ₹ 113.21 Crores as against ₹ 45.35 crores in 2021-22. The export sales contribution increased from 45% in FY22 to 48% in FY23 showing an increase of 35% whereas the domestic sales increased by 19%.

The major reasons behind the same are a) Low base effect as 2 quarters of FY 21-22 were impacted by COVID and hence, demand was lower. b) Pent up demand in FY23, once normal life returned post covid. c) The Garment increase of 143% in Export and 58% in Domestic was on account of larger orders from international brands.

A detailed note on internal control systems and adequacy has been mentioned in the Board's Report.

The industrial relations in all units of the Company continue to be cordial. The skills, experience and passion of our people facilitate deeper customer understanding and engaging relationships and strengthen our brand value as a preferred employer. We continue to step up efforts to accelerate our value-based growth strategy and the overall development of human capital. We nurture our people by investing in their empowerment through learning and development, wellness, and safety besides providing workplace facilities.

Over the year, many new HR initiatives have been implemented. One of the key activities carried out during the year was Organization Restructuring, with a view of divisional segmentation, with each division being professionally managed by a dedicated Business Head, who shall be responsible for the performance of the entire division. Additionally, all the common functions will be managed by other senior officials. Hiring of the senior officials – “CFO” and “Business Head, Yarns”, carried out, joining us in Q1 of FY 2023-24.

CAUTIONARY STATEMENTS

Statements in this Management Discussion and Analysis, describing the Company's objectives, projections, estimates, expectations, or predictions, may be “forward looking statements” within the meaning of applicable laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include raw material availability and prices, cyclical demand and pricing in the Company's principal markets, changes in Government regulations, tax regimes, economic developments within India and the countries in which the Company conducts business and other incidental factors.

ix. Share Transfers System

In terms of Regulation 40(1) of the SEBI Listing Regulations, as amended from time to time, the transferring of shares in physical form has stopped due to SEBI's norms for all the listed companies w.e.f. 1st April, 2019. Accordingly, securities of listed Companies can be transferred only in dematerialised form.

Further, SEBI has vide its circular (25th January, 2022, mandated Companies to issue its securities in demat form only while processing various service requests such as issue of duplicate share certificates, sub division, consolidation, transmission etc. to enhance ease of dealing in securities markets by investors. Accordingly, members are requested to make service requests by submitting a duly filled and signed form ISR-4, the format of which is available on the Company's as well as RTA's website.

In view of the aforesaid, members now holding shares in physical form are hereby requested to convert their holding in electronic mode to avail various benefits of dematerialisation.

Pursuant to Regulation 40(9) of the Listing Regulations, certificates, have been issued by a Company Secretary in-Practice on yearly basis for due compliance of share transfer formalities by the Company. Pursuant to Regulation 76 of SEBI (Depositories and Participants) Regulation, 2018, reports have been received from the Chartered Accountants-in-Practice for timely dematerialisation of shares and for reconciliation of the share capital of the Company on a quarterly basis. The audit report confirms that the total issued / paid-up capital is in agreement with the total number of shares in physical form and the total number of dematerialized shares held with NSDL and CDSL.

Standalone Financial Statements

INDEPENDENT AUDITORS' REPORT

To,

The Members of**Banswara Syntex Ltd.****Report on the Audit of the Standalone Ind AS Financial Statements****Opinion**

We have audited the Standalone Ind AS financial statements of **Banswara Syntex Ltd** ("the company") which comprise the balance sheet as at March 31, 2023, and the statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity, and Statement of Cash Flows for the year ended on that date, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Ind AS Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Ind AS Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed the matter
<p>Existence, Valuation of inventory and significant judgments, estimates relating to provision for obsolescence of slow and non-moving inventory</p> <p>Inventories aggregate to ₹ 31,394.19 Lakhs As at March 31st, 2023, Inventory comprises of raw material including packing material, work in progress, finished goods and stores and spares.</p> <p>We have identified the inventories as key audit matter because it is material to the financial statements.</p> <p>Refer note 1(C)(6) and Note 10 to the Standalone Ind AS financial statements.</p>	<ul style="list-style-type: none"> • We read and understood the Company's accounting policy for inventory valuation. • Obtained understanding of the management's process of inventory valuation and inventory physical verification performed at year end. • Observed the physical stock count process on a sample basis for selected locations by attending the physical stock-taking exercise conducted by management; further, we physically verified items on test check basis. • We have also been provided the physical verification report covering major inventory which is certified by the Internal Audit Department. For the inventory lying with the third party, management has provided the confirmation obtained from the third parties. • We obtained understanding of the inventory valuation process, and the assumptions used by the management in the process of calculation of inventory provision. We have tested management review controls and operating effectiveness of controls related to purchase, sales and Inventory verification.

Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Ind AS Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Ind AS Financial Statements.

Key Audit Matter	How our audit addressed the matter
	<ul style="list-style-type: none"> • The Company has a policy for write-down of inventories to net realisable value on account of obsolescence and slow-moving inventory which is recognised on a case-to-case basis based on the management’s assessment. Write-down of inventories to net realisable value is subjective owing to the nature of inventories and is dependent on significant judgments around probability of decrease in the realisable value. • We tested the basis of computation of net realisable value including arithmetical accuracy, validity of the data used and provision for slow or non-moving inventory and obsolescence at the reporting date is appropriate, by assessing the methodology and assumptions adopted by management supported by analysis of historical data • We performed cut off testing for purchase and sales transactions made near the reporting date to assess whether transactions are recorded in the correct period by testing appropriate records, • Ensured that the closing Inventory valuation is in line with the Stock and Debtors statement furnished to the lenders for security purpose is reconciled with books of account on quarterly basis.

Information Other than the Standalone Ind AS Financial Statements and Auditor’s Report Thereon

The Company’s Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Company’s annual report, but does not include the Standalone Ind AS financial statements and our auditor’s report thereon.

Our opinion on the Standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Ind AS Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 (“the Act”) with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the company in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended from time

to time.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are

considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We are also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and

significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Ind AS Financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "**Annexure A**", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:

“Annexure B” to the Independent Auditor’s Report of even date on the Standalone Ind AS Financial Statements of Banswara Syntex Limited the year ended March 31st, 2023

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Banswara Syntex Limited** (“the Company”) as of **March 31st, 2023** in conjunction with our audit of the Standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on, “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2023, based on, “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

1. Overview & Significant Accounting Policies

A. Corporate Information

Banswara Syntex Limited (“the Company”) is a Company domiciled in India and limited by shares (CIN: L24302RJ1976PLC001684). The shares of the Company are publicly traded on the National Stock Exchange of India Limited and Bombay Stock Exchange Limited. The address of the Company’s registered office is Industrial Area, Dahod Road, Banswara Rajasthan.

These financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the ‘Ind AS’) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the ‘Act’) and other relevant provisions of the Act.

These financial statements were authorized for issue by Board of Directors on 15 May 2023.

B. Basis of Preparation of Financial Statement

1. Compliance with Ind AS

These Financial Statements are prepared on going concern basis following accrual basis of accounting and comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto, the Companies Act, 2013 (to the extent applicable) and applicable provisions of the Companies Act, 1956.

2. Basis of measurement/Use of Estimates

(i) The Financial Statements are prepared on accrual basis under the historical cost convention except certain financial assets and liabilities (including derivatives instruments) that are measured at fair value. The methods used to measure fair values are discussed in notes no. 53 to financial statements.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

(ii) The preparation of financial statements requires judgments, estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized. Major Estimates are discussed in Part D.

3. Recent Accounting Pronouncements - Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

On March 31st, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below.

Ind AS 1 - Presentation of Financial Statements - This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1st, 2023. The Company has evaluated the amendment and the impact of the amendment is insignificant in the standalone financial statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors - This amendment has introduced a definition of ‘accounting estimates’ and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1st, 2023. The Company has evaluated the amendment and there is no impact on its standalone financial statements.

Ind AS 12 - Income Taxes - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and off setting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and there is no impact on its standalone financial statement.

4. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is the Company’s functional currency. All financial information presented in INR has been rounded to the nearest Lakhs (up to two decimals), except as stated otherwise.

5. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realized or intended to sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

C. Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

1. Property, plant & equipment

1.1. Initial recognition and measurement

An item of property, plant and equipments recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Items of property, plant and equipments are measured at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset, inclusive of non-refundable taxes & duties, to the location and condition necessary for it to be capable of operating in the manner intended by management.

Freehold land is carried at cost.

When parts of an item of property, plant and equipments have different useful lives, they are recognized separately.

Items of spare parts, stand-by equipment and servicing equipment which meet the definition of property, plant and equipment are capitalized.

1.2. Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of Property, Plant and Equipment are recognized in the statement of profit and loss as incurred.

1.3. Derecognition

Property, Plant and Equipment are derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

1.4. Depreciation

Depreciation is recognized in statement of profit and loss on Straight Line Method (SLM) over the estimated useful life of property, plant and equipment as mentioned in Schedule II of the Companies Act, 2013, except in case of Plant & Machinery where the useful life has been taken as ascertained by the Independent Chartered Engineer or technical

experts of the Company. The useful life of the Plant & Machinery so ascertained is ranging from 5 to 30 years on triple shift basis in certain plants as against the life of 15 years given in Part C of Schedule II of the Companies Act, 2013. Further, considering materiality of assets costing less than ₹ 5,000 are fully depreciated in the year of purchase/acquisition. The Company provide pro-rata depreciation from/to the date on which asset is acquired or put to use/ disposed off as appropriate.

Leasehold lands are amortized over the lease term unless it is reasonably certain that the Company will obtain ownership by the end of the lease term.

Depreciation on additions to/deductions from property, plant and equipment during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

Where it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably, subsequent expenditure on a property, plant and equipment along-with its unamortized depreciable amount is charged off prospectively over the revised useful life determined by technical assessment.

In circumstance, where a property is abandoned, the cumulative capitalized costs relating to the property are written off in the same period.

2. Capital work-in-progress

The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

3. Intangible assets and intangible assets under development

3.1. Initial recognition and measurement:

An intangible asset is recognized if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the company and the cost of the asset can be measured reliably.

Intangible assets acquired by the Company are measured on initial recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

Expenditure on development activities is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Company intends to and has sufficient resources to complete development and to use or sell the asset.

Expenditure incurred which are eligible for capitalizations under intangible assets are carried as intangible assets under development till they are ready for their intended use.

3.2. Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

3.3. Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

3.4. Amortization

Intangible assets having definite life are amortized on straight line method in their useful lives. Useful life of computer software is estimated at six years.

4. Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale. Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses

are complete. Borrowing costs consist of (a) interest expense calculated using the effective interest method as described in Ind AS 109 – 'Financial Instruments' (b) finance charges in respect of finance leases recognized in accordance with Ind AS 116 – 'Leases' and (c) exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are charged to revenue as and when incurred.

5. Investment in Equity instrument of Joint Venture and Subsidiary

These are Company's Separate Financial Statements. Investment in equity instrument of Joint Venture is stated at cost as per Ind AS 27 'Separate Financial Statement'. Where the carrying amount of an investment is greater than its estimated recoverable amount. It is assessed for recover ability and in case of permanent diminution provision for impairment is recorded in statement of Profit and Loss. On disposal of Investment, the differences between the net disposal proceeds and the carrying amount is recognized to the statement of profit and loss.

Equity Investment in subsidiary are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of Investment in subsidiaries, the difference between net disposal proceeds and the carrying amount are recognized in the Statement of profit and loss.

Dividend from these is recognized as and when right to receive is established.

6. Inventories

Inventories are valued at the lower of cost or net realizable value. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average cost basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Spare parts other than those capitalized as Property, Plant and Equipment are carried as inventory.

The diminution in the value of obsolete, unserviceable, slow moving/non-moving inventory is ascertained on review and provided for and shown as net of provision.

7. Cash and Cash Equivalent

Cash and cash equivalent in the balance sheet comprise cash at banks and cash on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

8. Government Grants

Government grants are recognized only when its reasonable certainty that economics benefit flow to the entities and attached conditions will be compiled with it

Government Grants related to income are recognized in the statement of profit and loss in the same period as the related cost which they are intended to compensate are accounted for. Government Grant/subsidy related to subvention of a particular expense is deducted from that expense in the year of recognition of that Government grant/subsidy.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to Profit and Loss on straight –line basis over the expected lives of related assets and presented within other income.

9. Provisions, Contingent liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

10. Foreign currency transactions and translation

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in Statement of profit or loss in the year in which it arises.

Non-monetary items measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

11. Revenue

Revenue is to be recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, the company apply the following five step approach:

- (1) Identify the contract with a customer
- (2) Identify the performance obligations in the contract
- (3) Determine the transaction price,
- (4) Allocate the transaction price to the performance obligations in the contract
- (5) Recognize revenues when a performance obligation is satisfied.

Control implies the ability to obtain the benefits from and direct the usage of the asset while also preventing other entities from obtaining benefits and directing usage.

a) Income from Sale of Goods

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions and incentives, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government. Payments from customers for the goods and services rendered are normally received within the credit terms as per the contracts with the customers.

The Company recognizes sales return only when the goods are actually returned by the customer. Therefore, a refund liability which is included in current financial liabilities or is reduced from current financial assets, is recognized for the goods actually returned.

Revenue from sale of goods is recognized at the point of time when the significant risks and rewards are transferred to the customer and the Company ceases to have its control over the goods.

Revenue from sale of products are recognized at a point in time on transfer of promised product to customer upon transfer of control in an amount that reflects the consideration that the company expects to receive in exchange for those product.

b) Income from Rendering of Services

Income from sale of services is recognised when (oras) the company satisfies performance obligation by transferring promised services to the customer i.e. at a point in time.

Other Export Benefit

Export benefits arising from Duty Drawback scheme, Merchandise Export Incentive Scheme, RoDTEP and other eligible export incentives are recognised on post export basis at the rate at which the entitlements accrue and is included in the 'Other Operating Income'. (Revenue from operation).

Export Benefits are accounted for in the year of export at net market realizable value.

Interest Income

For all financial instruments classified and measured at amortized cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the Statement of Profit or loss.

Dividend

Dividend Income is recognized when the Company's right to receive is established which generally occurs when the shareholders approve the dividend.

Other Income

Other income is recognized in the statement of profit and loss when increase in future economic benefits related to an increase in an asset or a decrease of a liability has arisen that can be measured reliably

Variable consideration

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

The Company has classified prompt payment discount i.e. cash discount as variable consideration and deducted from the sales consideration accordingly.

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract.

12. Employee Benefits

12.1 Short Term Employee Benefit

Short-term employee benefit obligations are measured on an un discounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under performance related pay if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

12.2. Post-Employment benefits

Employee benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit). These are of two type:

12.2.1. Defined contribution plans

Defined contribution plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. Provident Fund and Employee State Insurance are Defined Contribution Plans in which the Company pays a fixed contribution and will have no further obligation.

12.2.2. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Company pays Gratuity as per provisions of the Gratuity Act, 1972. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the company, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses are recognized in Other Comprehensive Income ("OCI") in the period in which they arise.

12.3 Other long-term employee benefits

Benefits under the Company's leave encashment, long-service award and economic rehabilitation scheme constitute other long term employee benefits. The Company's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations. The calculation is performed using the projected unit credit method. Actuarial gains or losses are recognized in statement of profit or loss in the period in which they arise. In case of funded plans, the fair value of plant asset is reduced from the gross obligation, to recognize the obligation on the net basis.

13. Taxes

Tax expense comprises current tax and deferred tax. Current tax expense is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in OCI or equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustment to tax payable in respect of previous years. Current taxes are recognized under 'Income tax payable' net of payments on account, or under 'Tax receivables' where there is a debit balance.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred tax is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in OCI or equity, in which case it is recognized in OCI or equity.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Tax credit is recognized in respect of Minimum Alternative Tax (MAT) paid in terms of section 115JAA of the Income Tax, 1961 based on convincing evidence that the Company will pay normal income tax within statutory time frame and the same is reviewed at each balance sheet date. MAT credit are in the form of unused tax credits that are carried forward by the Company for a specified period of time, hence it is grouped with Deferred Tax Assets.

Additional income taxes that arise from the distribution of dividends are recognized at the same time that the liability to pay the related dividend is recognized.

14. Leases

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is

initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful life of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, company's incremental borrowing rate.

Generally, the company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the company is reasonably certain to exercise, lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the company's estimate of the amount expected to be payable under a residual value guarantee, or if company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company presents right-of-use assets that do not meet the definition of investment property in the statement of financial position. (Refer note 3 & 21 respectively)

Short-term leases and leases of low-value assets

The company has elected not to recognise right-of-use assets and lease liabilities for short term leases of real estate properties that have a lease term of 12 months. The company recognise the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term. The respective leased assets are included in the balance sheet based on their nature.

Arrangements in the nature of lease

The Company enters into agreements, comprising a transaction or series of related transactions that does not take the legal form of a lease but conveys the right to use the asset in return for a payment or series of payments. In case of such arrangements, the Company applies the requirements of Ind AS 116 – Leases to the lease element of the arrangement. For the purpose of applying the requirements under Ind AS 116 – Leases, payments and other consideration required by the arrangement are separated at the inception of the arrangement into those for lease and those for other elements.

15. Impairment of Non-financial Assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU").

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in statement of profit or loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of goodwill of that CGU, if any and then the assets of the CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

16. Dividends

Final dividends and interim dividends payable to a Company's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

17. Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest prior period presented, the opening balances of assets, liabilities and equity for the earliest prior period presented, are restated.

18. Earnings Per Share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

19. Statement of Cash Flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS-7 'Statement of cash flows.

20. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

20.1. Financial assets

Initial recognition and measurement

Except for trade receivables all financial assets are recognized initially at fair value plus or minus, in the case of financial assets not recorded at fair value through statement of profit or loss, transaction costs that are attributable to the acquisition or issue of the financial asset. Purchase or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e. the date that the Company commits to purchase or sell the assets.

Trade receivables that do not contain a significant financing component are initially recognized/measured at the transaction price.

Subsequent measurement

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate method ("EIR"). Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognized in the statement of profit and loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI (Fair Value through OCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the OCI. However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the statement of profit and loss. On Derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to classify a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments

All equity investments in entities are measured (except equity investment in joint venture and subsidiary) at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instruments, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However the company may transfer cumulative gain or loss within the equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity investments in joint ventures are measured at cost.

Equity Investment in subsidiary are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of Investment in subsidiaries, the difference between net disposal proceeds and the carrying amount are recognized in the Statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, debt securities, deposits, trade receivables and bank balance.
- Trade receivables or any contractual right or receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables or contract assets resulting from transactions within the scope of Ind AS 115 if they do not contain a significant financing component.
- Trade receivables or contract assets resulting from transactions within the scope of Ind AS 115 that contain a significant financing component, if the Company applies practical expedient to ignore separation of time value of money, and

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on acquisition and any material transaction that are any integral part of the EIR. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Derivative financial instruments

The Company uses forwards to mitigate the risk of changes in interest rates, exchange rate and commodity prices. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss.

D. Major Estimates made in preparing Financial Statements

1. Useful life of property, plant and equipment and intangible assets

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Useful life of the assets other than Plant and machinery are in accordance with Schedule II of the Companies Act, 2013.

The Company reviews at the end of each reporting date the useful life of property, plant and equipment, and are adjusted prospectively, if appropriate.

Intangible assets is being amortized on straight line basis over the period of six years.

2. Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

3. Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter. In the similar line, management also on the basis of best judgment and estimate determines the net realizable value of the Inventories to make necessary provision.

4. Asset Held for Sale

Significant judgment is required to apply the accounting of non-current assets held for sale under Ind AS 105 'Non-current Assets Held for Sale and Discontinued Operations'. In assessing the applicability, management has exercised judgment to evaluate the availability of the asset for immediate sale, management's commitment for the sale and probability of sale within one year to conclude if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

Risk Exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

a) Asset volatility

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. Most of the plan asset investments are in fixed income securities with high grades and in government securities. These are subject to interest rate risk and the fund manages interest rate risk with derivatives to minimize risk to an acceptable level. A portion of the funds are invested in equity securities and in alternative investments which have low correlation with equity securities.

The equity securities are expected to earn a return in excess of the discount rate and contribute to the plan deficit. The Company has a risk management strategy where the aggregate amount of risk exposure on a portfolio level is maintained at a fixed range. Any deviations from the range are corrected by rebalancing the portfolio. The Company intends to maintain the above investment mix in the continuing years.

b) Changes in discount rate

A decrease in discount rate will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

c) Inflation risks

In the pension plans, the pensions in payment are not linked to inflation, so this is a less material risk.

d) Life expectancy

The pension plan obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plans' liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

The Company ensures that the investment positions are managed within an asset-liability matching (ALM) framework that has been developed to achieve long-term investments that are in line with the obligations under the employee benefit plans. Within this framework, the Company's ALM objective is to match assets to the pension obligations by investing in long-term fixed interest securities with maturities that match the benefit payments as they fall due and in the appropriate currency.

The Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. The Company has not changed the processes used to manage its risks from previous periods. The Company uses derivatives to manage some of its risk. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

C) Other Long Term Employee Benefit
Leave Policy

Other long term employee benefit includes earned leave to the employees of the Company which accrue annually for 24 days. Earned leave can be accumulated up to 90 days while in service. These accumulated earned leave are encashable at the time of retirement or leaving the services of the Company. The scheme is unfunded and liability for the same is recognised on the basis of actuarial valuation. A provision of ₹ 64.93 Lakhs (Previous Year: ₹ 183.34 Lakhs) have been made on the basis of actuarial valuation and debited to the Statement of Profit and Loss.

Amount of ₹ 120.75 Lakhs (Previous Year; ₹ 250.91 Lakhs) is recognised as expenses and included in Note No 36 "Employee benefit expenses"

B) Financial risk management

Financial Risk Management

The Company's principal financial liabilities comprise Borrowings, trade payables, Lease Liabilities and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade & other receivables, cash & cash Equivalent, Investment, deposits & other assets.

Company is exposed to following risk from the use of its financial instrument:

- Credit Risk
- Liquidity Risk
- Market Risk
- Foreign Currency Risk
- Interest Rate Risk

The Company's Financial Risk Management is an integral part of how to plan and execute its business strategies. The Company's financial risk management is set by the Managing Board.

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. Credit risk arises principally from trade receivables, loans & advances, cash & cash equivalents and deposits with banks and financial institutions.

Trade Receivable

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 30 days to 180 days credit term (Payment Terms). Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The Company has no concentration of credit risk at the customer base is widely distributed both economically and geographically.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 11. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. The requirement of impairment is analysed as each reporting date.

Other Financial Instruments and Cash & Cash Equivalent

The Company maintain its cash & cash equivalent in current account to meet the day to day requirements, in fixed deposits for bank margin & to meet regulatory requirements for repayment of deposits. Other financial instruments are loan given to employee, Investment and Deposit. The Company's maximum exposure to credit risk for the component of the Balance Sheet as of 31 March 2023 & 31 March 2022 is the carrying amount as disclosed in Note 11,12, 13, 14, 15 & 16.

Provision for Expected Credit or Loss
(a) Financial assets for which loss allowance is measured using 12 month expected credit losses.

The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

(b) Financial assets for which loss allowance is measured using life time expected credit losses

The Company provides loss allowance on trade receivables using life time expected credit loss and as per simplified approach.

Ageing of trade receivables

The Ageing of trade receivables is as below:

(₹ in Lakhs)

(ii) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Company. All such transactions are carried out within the guidelines set by the Managing Board.

(iii) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates. The company uses forward contracts to mitigate its risk from foreign currency fluctuations.

The Company's investment consists of investments in publicly traded companies held for purposes other than trading. Such investments held in connection with non-consolidated investments represent a low exposure risk for the Company and are not hedged.

As at 31st March 2023 the Company does not have material exposure to listed or unlisted equity price risk.

(iv) Interest Rate Risk

Interest rate risk arises from the sensitivity of financial assets and liabilities to changes in market rates of interest.

The Company is exposed to interest rate risk arising mainly from long term borrowings with floating interest rates. The Company is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Company manages the interest rate risks by entering into different kinds of loan arrangements with varied terms.

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments is as follows:

Note No. 53. Disclosure as per Ind AS 113 'Fair Value Measurement'
Fair Value Hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are:-

- (a) recognised and measured at fair value and;
- (b) measured at amortised cost and for which fair values are disclosed in financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the accounting standard.

Fair value are categorised into different level in a fair value hierarchy which are as follows:

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2 : The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates.

Level 3 : If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable market transactions and dealer quotes of similar instruments.

Valuation Techniques used to determine fair values:
A) Specific valuation technique is used to determine the fair value of the financial instruments which include:

- i) For financial instruments other than (ii) and (iii)- the use of quoted market prices.
- ii) For financial liabilities (domestic currency loans) :- appropriate market borrowing rate of the entity as of each balance sheet date used.
- iii) For financial assets (employee loans) : appropriate market rate of the entity as of each balance sheet date used.

INDEPENDENT AUDITOR'S REPORT**TO THE MEMBERS OF BANSWARA SYNTEX LIMITED****Report on the Audit of the Consolidated Ind AS Financial Statements****Opinion**

We have audited the accompanying Consolidated Ind AS financial statements of **BANSWARA SYNTEX LIMITED** (the "Company") and its Joint venture and Subsidiary Company (the company and its Subsidiary together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at **March 31st, 2023**, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flows Statement for the year ended, and notes to the Consolidated Ind AS financial statements, including a summary of significant accounting policies (hereinafter referred to as "the Consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed the matter
<p>Existence, Valuation of inventory and significant judgments, estimates relating to provision for obsolescence of slow and non-moving inventory</p> <p>Inventories aggregate to ₹ 31,394.19 Lakhs (the Company) As at March 31st, 2023,</p> <p>Inventory comprises of raw material including packing material, work in progress, finished goods and stores and spares.</p> <p>We have identified the inventories as key audit matter because it is material to the financial statements.</p> <p>Refer note 1(C)(6) and Note 10 to the standalone Ind AS financial statements.</p>	<ul style="list-style-type: none"> • We read and understood the Company's accounting policy for inventory valuation. Obtained understanding of the management's process of inventory valuation and inventory physical verification performed at year end; • Observed the physical stock count process on a sample basis for selected locations by attending the physical stock-taking exercise conducted by management; further, we physically verified items on test check basis. • We have also been provided the physical verification report covering major inventory which is certified by the Internal Audit Department. For the inventory lying with the third party, management has provided the confirmation obtained from the third parties • We obtained understanding of the inventory valuation process, and the assumptions used by the management in the process of calculation of inventory provision. We have tested management review controls and operating effectiveness of controls related to purchase, sales and Inventory verification. • The Company has a policy for write-down of inventories to net realisable value on account of obsolescence and slow -moving inventory which is recognised on a case-to-case basis based on the management's assessment. Write-down of inventories to net realisable value is subjective owing to the nature of inventories and is dependent on significant judgments around probability of decrease in the realisable value.

Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the Consolidated state of affairs of the Group as at March 31, 2023, the Consolidated profit, Consolidated total comprehensive income, Consolidated changes in equity and its Consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated Ind As financial statements in accordance with Standards on Auditing (SAs) specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Ind As financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the Independence requirements that are relevant to our audit of the Consolidated Ind As financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS financial statements.

Key Audit Matter	How our audit addressed the matter
	<ul style="list-style-type: none"> • We tested the basis of computation of net realisable value including arithmetical accuracy, validity of the data used and provision for slow or non-moving inventory and obsolescence at the reporting date is appropriate, by assessing the methodology and assumptions adopted by management supported by analysis of historical data • We performed cut off testing for purchase and sales transactions made near the reporting date to assess whether transactions are recorded in the correct period by testing appropriate records, • Ensure that the closing Inventory valuation is in line with the Stock and Debtors statement furnished to the lenders for security purpose is reconciled with books of account on quarterly basis.

Information Other than the Consolidated Ind AS Financial Statements and Auditor’s Report Thereon

The Company’s Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Company’s annual report, but does not include the Consolidated Ind AS financial statements and our auditor’s report thereon.

Our opinion on the Consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements

The Company’s Board of Directors is responsible for the preparation and presentation of these Consolidated Ind AS financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the Consolidated financial position, Consolidated financial performance including other comprehensive income, Consolidated change in equity and Consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind

AS) specified under section 133 of the Act read with companies (Indian Accounting Standard) Rules, 2015, as amended from time to time.

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS financial statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its Joint venture and subsidiary which are Companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Ind AS financial statements, including the

disclosures, and whether the Consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Ind AS financial statements.

Materiality is the magnitude of misstatements in the Consolidated Ind AS financial statement that, individually or in aggregate, make it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in

(i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance of the Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

1. "Annexure A" to the Independent Auditor's Report of even date on the Consolidated Ind AS Financial Statements of BANSWARA SYNTEX LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Ind AS financial statements of the Company as of and for the year ended March 31, 2023, we did not audit the internal financial controls over financial reporting of Joint Venture Company i.e. Tesca Textiles & Seat Components (India) Private Limited and subsidiary i.e. Banswara Brands Private Limited Incorporated in India as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company's and its Joint Venture and subsidiary company which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on, "the internal control over financial reporting criteria established by the respective Companies which are incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the

orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated financial statements of the Company and its joint venture and Subsidiary Company which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their report, is sufficient and appropriate to provide a basis for our audit opinion on the Group's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control with reference to Consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the company; and (3) provide

reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to Consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated financial statements, to future periods are subject to the risk that the internal financial control with reference to Consolidated financial statements, may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company and its Joint Venture and subsidiary which are companies incorporated in India, in all material respects, an adequate internal financial controls system with reference to Consolidated financial statements, and such internal financial controls with reference to Consolidated financial statements were operating effectively as at 31st March 2023, based on the criteria for internal financial controls with reference to Consolidated financial statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act include the information of the Company and its Joint venture companies and subsidiary in respect of the adequacy and operating effectiveness of the internal financial controls over financial reporting. On the basis of report of other auditor in respect of Joint Venture Company and Subsidiary Company audited by them.

Our opinion is not modified in respect of the above matter.

Consolidated Financial Statement for the year ended 31st March 2023
1. Overview & Significant Accounting Policies
A. Corporate Information

Banswara Syntax Limited (“the Group”) is a Group domiciled in India and limited by shares (CIN: L24302RJ1976PLC001684). The shares of the Group are publicly traded on the National Stock Exchange of India Limited and Bombay Stock Exchange Limited. The address of the Group’s registered office is Industrial Area, Dahod Road, Banswara, Rajasthan.

These consolidated financial statements of the Group have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the ‘Ind AS’) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the ‘Act’) and other relevant provisions of the Act.

These Consolidated financial statements were authorized for issue by Board of Directors on 15th May 2023.

B. Basis of Preparation of Financial Statement
1. Compliance with Ind AS

These Financial Statements are prepared on going concern basis following accrual basis of accounting and comply in all material aspects with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto, the Companies Act, 2013 (to the extent applicable) and applicable provisions of the Companies Act, 1956.

2. Basis of measurement/Use of Estimates

(i) The Financial Statements are prepared on accrual basis under the historical cost convention except certain financial assets and liabilities (including derivatives instruments) that are measured at fair value. The methods used to measure fair values are discussed in notes no. 52 to financial statements.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

(ii) The preparation of financial statements requires judgments, estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized. Major Estimates are discussed in Part D.

3. Recent Accounting Pronouncements: Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

On March 31st, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below.

Ind AS 1 - Presentation of Financial Statements - This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1st, 2023. The Group has evaluated the amendment and the impact of the amendment is insignificant in the standalone financial statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors - This amendment has introduced a definition of ‘accounting estimates’ and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1st, 2023. The Group has evaluated the amendment and there is no impact on its standalone financial statements.

Ind AS 12 - Income Taxes - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and off setting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1st, 2023. The Group has evaluated the amendment and there is no impact on its standalone financial statement.

4. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is the Group’s functional currency. All financial information presented in INR has been rounded to the nearest Lakhs (up to two decimals), except as stated otherwise.

5. Current and non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realized or intended to sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

C. Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

1. Basis and Principle of Consolidation

The financial statements of Joint venture and Subsidiary are drawn up to the same reporting date as of the Group for the purpose of consolidation.

1.1. Joint arrangements

Under Ind AS 111 'Joint Arrangements', investment in joint arrangements are classified as either joint operations or joint venture. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The group has only joint venture.

Joint Venture

Interests in joint venture are accounted for using the equity method (see C.1.2 below), after initially being recognized at cost in the consolidated balance sheet.

1.2. Equity Method

Under the equity method of accounting, the investment in a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

The statement of profit and loss reflects the Group's share of the results of operations of the associate or joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the joint venture are eliminated to the extent of the interest in the joint venture.

Upon loss of internal control over joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the joint venture upon loss of or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

1.3 The list of subsidiaries included in the Consolidated Financial Statements are as

S. No.	Name of the Subsidiary	Country of Incorporation	Proportion of ownership interest and voting power
1.	Banswara Brands Private Limited	India	100%

The subsidiary Company was incorporated on 23rd August, 2022 and became the wholly owned subsidiary of the parent Company from the date of incorporation.

- 1.4 The consolidated financial statements incorporate the financial statements of the Parent Company and its wholly owned subsidiary. For this purpose, an entity which is, directly or indirectly, controlled by the Parent Company is treated as a subsidiary. The Parent Company together with its subsidiary constitutes the Group. Control exists when the Parent Company, directly or indirectly, has power over the investee, is exposed to variable returns from its involvement with the investee and has the ability to use its power to affect its returns
- 1.5 The Consolidation of a subsidiary begins when the Parent Company, directly or indirectly, obtains control over the subsidiary and ceases when the Parent Company, directly or indirectly, loses control of the subsidiary. Income and expenses of a subsidiary acquired or disposed off during the year are included in the consolidated Statement of Profit and Loss from the date the Parent Company, directly or indirectly, gains control until the date when the Parent Company, directly or indirectly, ceases to control the subsidiary
- 1.6 The consolidated financial statements (IND AS 110 “Consolidated Financial Statements”) of the Group combines financial statements of the Parent Company and its subsidiary line-by-line by adding together the like items of assets, liabilities, income and expenses. All intra-group assets, liabilities, income, expenses and unrealised profits/losses on intra-group transactions are eliminated on consolidation. The accounting policies of subsidiary have been harmonised to ensure the consistency with the policies adopted by the Parent Company. The consolidated financial statements have been presented to the extent possible, in the same manner as Parent Company’s standalone financial statements. Profit or loss and each component of other comprehensive income are attributed to the owners of the Parent Company.
- 1.7 The gains/losses in respect of part divestment/ dilution of stake in subsidiary companies not resulting in ceding of control are recognized directly in other equity attributable to the owners of the Parent Company.

2. Property, plant & equipment

2.1. Initial recognition and measurement

An item of property, plant and equipments recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Items of property, plant and equipments are measured at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset, inclusive of non-refundable taxes & duties, to the location and condition necessary for it to be capable of operating in the manner intended by management.

Free hold land is carried at cost.

When parts of an item of property, plant and equipments have different useful lives, they are recognized separately.

Items of spare parts, stand-by equipment and servicing equipment which meet the definition of property, plant and equipment are capitalized.

2.2. Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of Property, Plant and Equipment are recognized in the statement of profit and loss as incurred.

2.3. Derecognition

Property, Plant and Equipment are derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

2.4. Depreciation

Depreciation is recognized in statement of profit and loss on Straight Line Method (SLM) over the estimated useful life of property, plant and equipment as mentioned in Schedule II of the Companies Act, 2013, except in case of Plant & Machinery where the useful life has been taken as ascertained by the Independent Chartered Engineer or technical experts of the Group. The useful life of the Plant & Machinery so ascertained is ranging from 5 to 30 years on triple shift basis in certain plants as against the life of 15 years given in Part C of Schedule II of the Companies Act, 2013. Further, considering materiality of assets costing less than ₹ 5,000 are fully depreciated in the year of purchase/acquisition. The Group provide pro-rata depreciation from/to the date on which asset is acquired or put to use/ disposed off as appropriate.

Leasehold lands are amortized over the lease term unless it is reasonably certain that the Group will obtain ownership by the end of the lease term.

Depreciation on additions to/deductions from property, plant and equipment during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

Where it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably, subsequent expenditure on a property, plant and equipment along-with its unamortized depreciable amount is charged off prospectively over the revised useful life determined by technical assessment.

In circumstance, where a property is abandoned, the cumulative capitalized costs relating to the property are written off in the same period.

3. Capital work-in-progress

The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

4. Intangible assets and intangible assets under development

4.1. Initial recognition and measurement:

An intangible asset is recognized if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the Group and the cost of the asset can be measured reliably.

Intangible assets acquired by the Group are measured on initial recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

Expenditure on development activities is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to and has sufficient resources to complete development and to use or sell the asset.

Expenditure incurred which are eligible for capitalizations under intangible assets are carried as intangible assets under development till they are ready for their intended use.

4.2. Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

4.3. Derecognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

4.4. Amortization

Intangible assets having definite life are amortized on straight line method in their useful lives. Useful life of computer software is estimated at six years.

5. Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction/exploration/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale. Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of (a) interest expense calculated using the effective interest method as described in Ind AS 109 – 'Financial Instruments' (b) finance charges in respect of finance leases recognized in accordance with Ind AS 116 – 'Leases' and (c) exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are charged to revenue as and when incurred.

6. Investment in Equity instrument of Joint Venture

These are Group's Separate Financial Statements. Investment in equity instrument of Joint Venture is stated at cost as per Ind AS 27 'Separate Financial Statement'. Where the carrying amount of an investment is greater than its estimated recoverable amount. It is assessed for recover ability and in case of permanent diminution provision for impairment is recorded in statement of Profit and Loss. On disposal of Investment, the differences between the net disposal proceeds and the carrying amount is recognized to the statement of profit and loss.

Dividend from these is recognized as and when right to receive is established.

7. Inventories

Inventories are valued at the lower of cost or net realizable value. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average cost basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Spare parts other than those capitalized as Property, Plant and Equipment are carried as inventory.

The diminution in the value of obsolete, unserviceable, slow moving/non-moving inventory is ascertained on review and provided for and shown as net of provision.

8. Cash and Cash Equivalent

Cash and cash equivalent in the balance sheet comprise cash at banks and cash on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

9. Government Grants

Government grants are recognized only when its reasonable certainty that economics benefit flow to the entities and attached conditions will be complied with it

Government Grants related to income are recognized in the statement of profit and loss in the same period as the related cost which they are intended to compensate are accounted for. Government Grant/subsidy related to subvention of a particular expense is deducted from that expense in the year of recognition of that Government grant/subsidy.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to Profit and Loss on straight –line basis over the expected lives of related assets and presented within other income.

10. Provisions, Contingent liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at

reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Group. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

11. Foreign currency transactions and translation

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in Statement of profit or loss in the year in which it arises.

Non-monetary items are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

12. Revenue

Revenue is to be recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Group expects to receive in exchange for those products or services. To recognize revenues, the Group apply the following five step approach:

- (1) Identify the contract with a customer
- (2) Identify the performance obligations in the contract
- (3) Determine the transaction price,
- (4) Allocate the transaction price to the performance obligations in the contract
- (5) Recognize revenues when a performance obligation is satisfied.

Control implies the ability to obtain the benefits from and direct the usage of the asset while also preventing other entities from obtaining benefits and directing usage.

a) Income from Sale of Goods

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions and incentives, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government. Payments from customers for the goods and services rendered are normally received within the credit terms as per the contracts with the customers.

The Group recognizes sales return only when the goods are actually returned by the customer. Therefore, a refund liability which is included in current financial liabilities or is reduced from current financial assets, is recognized for the goods actually returned.

Revenue from sale of goods is recognized at the point of time when the significant risks and rewards are transferred to the customer and the Group ceases to have its control over the goods.

Revenue from sale of products are recognized at a point in time on transfer of promised product to customer upon transfer of control in an amount that reflects the consideration that the Group expects to receive in exchange for those product.

b) Income from Rendering of Services

Income from sale of services is recognised when (oras) the Group satisfies performance obligation by transferring promised services to the customer i.e. at a point in time.

Other Export Benefit

Export benefits arising from Duty Drawback scheme, Merchandise Export Incentive Scheme, RoDTEP and other eligible export incentives are recognised on post export basis at the rate at which the entitlements accrue and is included in the 'Other Operating Income'. (Revenue from operation).

Export Benefits are accounted for in the year of export at net market realizable value.

Interest Income

For all financial instruments classified and measured at amortized cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the Statement of Profit or loss.

Dividend

Dividend Income is recognized when the Group's right to receive is established which generally occurs when the shareholders approve the dividend.

Other Income

Other income is recognized in the statement of profit and loss when increase in future economic benefits related to an increase in an asset or a decrease of a liability has arisen that can be measured reliably

Variable consideration

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

The Group has classified prompt payment discount i.e. cash discount as variable consideration and deducted from the sales consideration accordingly.

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs under the contract.

13. Employee Benefits**13.1 Short Term Employee Benefit**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under performance related pay if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

13.2 Post-Employment benefits

Employee benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit). These are of two type:

13.2.1. Defined contribution plans

Defined contribution plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. Provident Fund and Employee State Insurance are Defined Contribution Plans in which the Group pays a fixed contribution and will have no further obligation.

13.2.2. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Group pays Gratuity as per provisions of the Gratuity Act, 1972. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Group's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the Group, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses are recognized in Other Comprehensive Income ("OCI") in the period in which they arise.

13.3 Other long-term employee benefits

Benefits under the Group's leave encashment, long-service award and economic rehabilitation scheme constitute other long term employee benefits. The Group's net obligation in respect of leave encashment is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Group's obligations. The calculation is performed using the projected unit credit method. Actuarial gains or losses are recognized in statement of profit or loss in the period in which they arise. In case of funded plans, the fair value of plant asset is reduced from the gross obligation, to recognize the obligation on the net basis.

14. Taxes

Tax expense comprises current tax and deferred tax. Current tax expense is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in OCI or equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustment to tax payable in respect of previous years. Current taxes are recognized under 'Income tax payable' net of payments on account, or under 'Tax receivables' where there is a debit balance.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred tax is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in OCI or equity, in which case it is recognized in OCI or equity.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Tax credit is recognized in respect of Minimum Alternative Tax (MAT) paid in terms of section 115JAA of the Income Tax, 1961 based on convincing evidence that the Group will pay normal income tax within statutory time frame and the same is reviewed at each balance sheet date. MAT credit are in the form of unused tax credits that are carried forward by the Group for a specified period of time, hence it is grouped with Deferred Tax Assets.

Additional income taxes that arise from the distribution of dividends are recognized at the same time that the liability to pay the related dividend is recognized.

15. Leases

As a lessee

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful life of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, Group's incremental borrowing rate.

Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group presents right-of-use assets that do not meet the definition of investment property in the statement of financial position. (Refer note 3 & 20 respectively)

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short term leases of real estate properties that have a lease term of 12 months. The Group recognise the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a lessor

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term. The respective leased assets are included in the balance sheet based on their nature.

Arrangements in the nature of lease

The Group enters into agreements, comprising a transaction or series of related transactions that does not take the legal form of a lease but conveys the right to use the asset in return for a payment or series of payments. In case of such arrangements, the Group applies the requirements of Ind AS 116 – Leases to the lease element of the arrangement. For the purpose of applying the requirements under Ind AS 116 – Leases, payments and other consideration required by the arrangement are separated at the inception of the arrangement into those for lease and those for other elements.

16. Impairment of Non-financial Assets

The carrying amounts of the Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU").

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in statement of profit or loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of goodwill of that CGU, if any and then the assets of the CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

17. Dividends

Final dividends and interim dividends payable to a Group's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

18. Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest prior period presented, the opening balances of assets, liabilities and equity for the earliest prior period presented, are restated.

19. Earnings Per Share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Group by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

20. Statement of Cash Flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS-7 'Statement of cash flows'.

21. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

21.1. Financial assets

Initial recognition and measurement

Except for trade receivables all financial assets are recognized initially at fair value plus or minus, in the case of financial assets not recorded at fair value through statement of profit or loss, transaction costs that are attributable to the acquisition or issue of the financial asset. Purchase or sales of financials assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e. the date that the Group commits to purchase or sell the assets.

Trade receivables that do not contain a significant financing component are initially recognized/measured at the transaction price.

Subsequent measurement

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate method ("EIR"). Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognized in the statement of profit and loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI (Fair Value through OCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent SPPI

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the OCI. However, the Group recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the statement of profit and loss. On Derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL (Fair value through profit or loss)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to classify a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments

All equity investments in entities are measured (except equity investment in joint venture and subsidiary) at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at FVTOCI or FVTPL. The Group makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instruments, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However the Group may transfer cumulative gain or loss within the equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity investments in joint ventures are measured at cost.

Equity Investment in subsidiary are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of Investment in subsidiaries, the difference between net disposal proceeds and the carrying amount are recognized in the Statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognized (i.e. removed from the Group's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind-AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, debt securities, deposits, trade receivables and bank balance.
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The Group follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables or contract assets resulting from transactions within the scope of Ind AS 115 if they do not contain a significant financing component.
- Trade receivables or contract assets resulting from transactions within the scope of Ind AS 115 that contain a significant financing component, if the Group applies practical expedient to ignore separation of time value of money, and

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. Amortized cost is

calculated by taking into account any discount or premium on acquisition and any material transaction that are any integral part of the EIR. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Derivative financial instruments

The Group uses forwards to mitigate the risk of changes in interest rates, exchange rates and commodity prices. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss.

D. Major Estimates made in preparing Financial Statements

1. Useful life of property, plant and equipment and intangible assets

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Useful life of the assets other than Plant and machinery are in accordance with Schedule II of the Companies Act, 2013.

The Group reviews at the end of each reporting date the useful life of property, plant and equipment, and are adjusted prospectively, if appropriate.

Intangible assets is being amortized on straight line basis over the period of six years.

2. Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Group considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

3. Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter. In the similar line, management also on the basis of best judgment and estimate determines the net realizable value of the Inventories to make necessary provision.

4. Asset Held for Sale

Significant judgment is required to apply the accounting of non-current assets held for sale under Ind AS 105 'Non-current Assets Held for Sale and Discontinued Operations'. In assessing the applicability, management has exercised judgment to evaluate the availability of the asset for immediate sale, management's commitment for the sale and probability of sale within one year to conclude if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

The Group has recognised an expenses of ₹ 1,941.29 Lakhs (Previous Year ₹ 1,555.18 Lakhs) towards the defined contribution plan.

In accordance with the Employees Provident Fund & Miscellaneous Provisions Act, 1952, employees are entitled to receive benefits under the Provident Fund. Both the employees and the employer make monthly contributions to the plan at a predetermined rate of an employee's basic salary. These contributions are made to the regional fund administered and managed by the Employees Provident Fund Organisation (EPFO). The Group has no further obligations under the fund managed by the EPFO beyond its monthly contributions which are charged to the statement of profit and loss in the period they are incurred.

B) Defined benefits plan

The Group has following post employment benefits which are in the nature of defined benefit plans:

Gratuity

The Group provides for gratuity payable to employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary divided by 26 days multiplied for the number of years of service. The gratuity plan is a funded plan administered by a Trust and the Company makes contributions to Life Insurance Corporation of India (LIC).

Risk Exposure

Through its defined benefit plans, the Group is exposed to a number of risks, the most significant of which are detailed below:

a) Asset volatility

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. Most of the plan asset investments are in fixed income securities with high grades and in government securities. These are subject to interest rate risk and the fund manages interest rate risk with derivatives to minimize risk to an acceptable level. A portion of the funds are invested in equity securities and in alternative investments which have low correlation with equity securities.

The equity securities are expected to earn a return in excess of the discount rate and contribute to the plan deficit. the Group has a risk management strategy where the aggregate amount of risk exposure on a portfolio level is maintained at a fixed range. Any deviations from the range are corrected by rebalancing the portfolio. the Group intends to maintain the above investment mix in the continuing years.

b) Changes in discount rate

A decrease in discount rate will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

c) Inflation risks

In the pension plans, the pensions in payment are not linked to inflation, so this is a less material risk.

d) Life expectancy

The pension plan obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plans' liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.

The Group ensures that the investment positions are managed within an asset-liability matching (ALM) framework that has been developed to achieve long-term investments that are in line with the obligations under the employee benefit plans. Within this framework, the Group's ALM objective is to match assets to the pension obligations by investing in long-term fixed interest securities with maturities that match the benefit payments as they fall due and in the appropriate currency.

the Group actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. the Group has not changed the processes used to manage its risks from previous periods. the Group uses derivatives to manage some of its risk. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

C) Other Long Term Employee Benefit**Leave Policy**

Other long term employee benefit includes earned leave to the employees of the Group which accrue annually for 24 days. Earned leave can be accumulated up to 90 days while in service. These accumulated earned leave are encashable at the time of retirement or leaving the services of the Group. The scheme is unfunded and liability for the same is recognised on the basis of actuarial valuation. A provision of ₹ 64.93 Lakhs (Previous Year: ₹ 183.34 Lakhs) have been made on the basis of actuarial valuation and debited to the Statement of Profit and Loss.

Amount of ₹ 120.75 Lakhs (Previous Year; ₹ 250.91 Lakhs) is recognised as expenses and included in Note No 36 "Employee benefit expenses"

B) Financial risk management

Financial Risk Management

The Group's principal financial liabilities comprise Borrowings, trade payables, Lease Liabilities and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade & other receivables, cash & cash Equivalent, Investment, deposits & other assets.

Group is exposed to following risk from the use of its financial instrument:

- Credit Risk
- Liquidity Risk
- Market Risk
- Foreign Currency Risk
- Interest Rate Risk

The Group's Financial Risk Management is an integral part of how to plan and execute its business strategies. The Group's financial risk management is set by the Managing Board.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counter party to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. Credit risk arises principally from trade receivables, loans & advances, cash & cash equivalents and deposits with banks and financial institutions.

Trade Receivable

"Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 30 days to 180 days credit term (Payment Terms). Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The Group has no concentration of credit risk at the customer base is widely distributed both economically and geographically.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 12. The Group does not hold collateral as security. The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. The requirement of impairment is analysed as each reporting date."

Other Financial Instruments and Cash & Cash Equivalent

The Group maintain its cash & cash equivalent in current account to meet the day to day requirements, in fixed deposits for bank margin & to meet regulatory requirements for repayment of deposits. Other financial instruments are loan given to employee, Investment and Deposit. The Company's maximum exposure to credit risk for the component of the Balance Sheet as of 31st March 2023 & 31st March 2022 is the carrying amount as disclosed in Note 11, 12, 13, 14, 15 & 16.

Provision for Expected Credit or Loss
(a) Financial assets for which loss allowance is measured using 12 month expected credit losses.

The Group has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

(b) Financial assets for which loss allowance is measured using life time expected credit losses

The Group provides loss allowance on trade receivables using life time expected credit loss and as per simplified approach.

Ageing of trade receivables

The Ageing of trade receivables is as below:

(₹ in Lakhs)

Ageing	0-180 days past due	181-365 days past due	1-2 years past due	2-5 years past due	Total

Impairment loss recognised on above	264.36	279.97	155.34	658.23	1,357.91

(i) Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

(ii) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Group's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Group. All such transactions are carried out within the guidelines set by the Managing Board.

(iii) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates. The Group uses forward contracts to mitigate its risk from foreign currency fluctuations.

Foreign Currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD, EURO, GBP and AUD rates to the functional currency of respective entity, with all other variables held constant. The Group's exposure to foreign currency changes for all other currencies is not material. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities.

The Group's investment consists of investments in publicly traded companies held for purposes other than trading. Such investments held in connection with non-consolidated investments represent a low exposure risk for the Group and are not hedged.

As at 31st March 2023 the Group does not have material exposure to listed or unlisted equity price risk.

(iv) Interest Rate Risk

Interest rate risk arises from the sensitivity of financial assets and liabilities to changes in market rates of interest.

The Group is exposed to interest rate risk arising mainly from long term borrowings with floating interest rates. The Group is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Group manages the interest rate risks by entering into different kinds of loan arrangements with varied terms.

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments is as follows:

(₹ in Lakhs)

Note No. 52. Disclosure as per Ind AS 113 'Fair Value Measurement'
Fair Value Hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are:-

- (a) recognised and measured at fair value and;
- (b) measured at amortised cost and for which fair values are disclosed in financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into three levels prescribed under the accounting standard.

Fair value are categorised into different level in a fair value hierarchy which are as follows:

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2 : The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates.

Level 3 : If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable market transactions and dealer quotes of similar instruments.

Valuation Techniques used to determine fair values:
A) Specific valuation technique is used to determine the fair value of the financial instruments which include:

- i) For financial instruments other than (ii) and (iii)- the use of quoted market prices.
- ii) For financial liabilities (domestic currency loans) :- appropriate market borrowing rate of the entity as of each balance sheet date used.
- iii) For financial assets (employee loans) : appropriate market rate of the entity as of each balance sheet date used.

B) Financial Instruments By Category

Set out below categorised table of financial instruments measured at FVTPL and Amortised Cost, no such instrument is measured at Fair value through Other Comprehensive Income (FVTOCI) :-
